6. “Council” means the city council of Boyden, Iowa.
7. “County” means Sioux County, Iowa.
8. “May” confers a power.
9. “Measure” means an ordinance, amendment, resolution or motion.

Words that are not defined in this Code of Ordinances or by the *Code of Iowa* have their ordinary meaning unless such construction would be inconsistent with the manifest intent of the Council, or repugnant to the context of the provision.

1.03 CITY POWERS. The City may, except as expressly limited by the Iowa Constitution, and if not inconsistent with the laws of the Iowa General Assembly, exercise any power and perform any function it deems appropriate to protect and preserve the rights, privileges, and property of the City and of its residents, and to preserve and improve the peace, safety, health, welfare, comfort, and convenience of its residents, and each and every provision of this Code of Ordinances shall be deemed to be in the exercise of the foregoing powers and the performance of the foregoing functions.

(Code of Iowa, Sec. 364.1)

1.04 INDEMNITY. The applicant for any permit or license under this Code of Ordinances, by making such application, assumes and agrees to pay for any injury to or death of any person or persons whomsoever, and any loss of or damage to property whatsoever, including all costs and expenses incident thereto, however arising from or related to, directly, indirectly, or remotely, the issuance of the permit or license, or the doing of anything thereunder, or the failure of such applicant, or the agents, employees, or servants of such applicant, to abide by or comply with any of the provisions of this Code of Ordinances or the terms and conditions of such permit or license, and such applicant, by making such application, forever agrees to indemnify the City and its officers, agents, and employees, and agrees to save them harmless from any and all claims, demands, lawsuits, or liability whatsoever for any loss, damage, injury, or death, including all costs and expenses incident thereto, by reason of the foregoing. The provisions of this section shall be deemed to be a part of any permit or license issued under this Code of Ordinances or any other ordinance of the City, whether expressly recited therein or not.

1.05 PERSONAL INJURIES. When action is brought against the City for personal injuries alleged to have been caused by its negligence, the City may notify in writing any person by whose negligence it claims the injury was caused. The notice shall state the pendency of the action, the name of the plaintiff, the name and location of the court where the action is pending, a brief statement of the alleged facts from which the cause arose, that the City believes that the person notified is liable to it for any judgment rendered against the City, and asking the person to appear and defend. A judgment obtained in the suit is conclusive in any action by the City against any person so notified, as to the existence of the defect or other cause of the injury or

damage, as to the liability of the City to the plaintiff in the first named action, and as to the amount of the damage or injury. The City may maintain an action against the person notified to recover the amount of the judgment together with all the expenses incurred by the City in the suit.

(Code of Iowa, Sec. 364.14)

1.06 RULES OF CONSTRUCTION. In the construction of this Code of Ordinances, the rules of statutory construction as set forth in Chapter 4 of the *Code of Iowa* shall be utilized to ascertain the intent of the Council, with the understanding that the term “statute” as used therein will be deemed to be synonymous with the term “ordinance” when applied to this Code of Ordinances.

1.07 EXTENSION OF AUTHORITY. Whenever an officer or employee is required or authorized to do an act by a provision of this Code of Ordinances, the provision shall be construed as authorizing performance by a regular assistant, subordinate, or a duly authorized designee of said officer or employee.

1.08 AMENDMENTS. All ordinances that amend, repeal, or in any manner affect this Code of Ordinances shall include proper reference to chapter, section, subsection, or paragraph to maintain an orderly codification of ordinances of the City.

1.09 CATCHLINES AND NOTES. The catchlines of the several sections of this Code of Ordinances, titles, headings (chapter, section and subsection), editor’s notes, cross references, and State law references, unless set out in the body of the section itself, contained in this Code of Ordinances, do not constitute any part of the law and are intended merely to indicate, explain, supplement, or clarify the contents of a section.

1.10 ALTERING CODE. It is unlawful for any unauthorized person to change or amend, by additions or deletions, any part or portion of this Code of Ordinances, or to insert or delete pages, or portions thereof, or to alter or tamper with this Code of Ordinances in any manner that will cause the law of the City to be misrepresented.

1.11 SEVERABILITY. If any section, provision, or part of this Code of Ordinances is adjudged invalid or unconstitutional, such adjudication will not affect the validity of this Code of Ordinances as a whole or any section, provision, or part thereof not adjudged invalid or unconstitutional.

1.12 WARRANTS. If consent to enter upon or inspect any building, structure, or property pursuant to a municipal ordinance is withheld by any person having the lawful right to exclude, the City officer or employee having the duty to enter upon or conduct the inspection may apply to the Iowa District Court in and for the County, pursuant to Section 808.14 of the *Code of Iowa*, for an administrative search warrant. No owner, operator or occupant, or any other person having charge, care, or control of any dwelling unit, rooming unit, structure, building, or premises shall fail or neglect, after presentation of a search warrant, to permit entry therein by the municipal officer or employee.

revoke any matter shall be considered in light of the facts and circumstances then existing and as may be reasonably foreseeable, and due consideration shall be given to the impact upon the public health, safety and welfare, and the decision shall be that of a reasonably prudent person under similar circumstances in the exercise of the police power.

1.14 STANDARD PENALTY. Unless another penalty is expressly provided by this Code of Ordinances for violation of any particular provision, section, or chapter, any person failing to perform a duty required by this Code of Ordinances or otherwise violating any provision of this Code of Ordinances or any rule or regulation adopted herein by reference shall, upon conviction, be subject to a fine of at least \$65.00 but not to exceed \$625.00. (Code of Iowa, Sec. 364.22[3])

3.02 ENVIRONMENTAL VIOLATION. A municipal infraction that is a violation of Chapter 455B of the *Code of Iowa* or of a standard established by the City in consultation with the Department of Natural Resources, or both, may be classified as an environmental violation. However, the provisions of this section shall not be applicable until the City has offered to participate in informal negotiations regarding the violation or to the following specific violations:

(Code of Iowa, Sec. 364.22[1])

1. A violation arising from noncompliance with a pretreatment standard or requirement referred to in 40 C.F.R. §403.8.
2. The discharge of airborne residue from grain, created by the handling, drying, or storing of grain, by a person not engaged in the industrial production or manufacturing of grain products.

3.03 PENALTIES. A municipal infraction is punishable by the following civil penalties:

(Code of Iowa, Sec. 364.22[1])

1. Standard Civil Penalties.
 - A. First offense – not to exceed \$750.00
 - B. Each repeat offense – not to exceed \$1,000.00

Each day that a violation occurs or is permitted to exist constitutes a repeat offense.

2. Special Civil Penalties.
 - A. A municipal infraction arising from noncompliance with a pretreatment standard or requirement, referred to in 40 C.F.R. §403.8, by an industrial user is punishable by a penalty of not more than \$1,000.00 for each day a violation exists or continues.

[†] **EDITOR'S NOTE:** For criminal penalty for violations of this Code of Ordinances, see Section 1.14.

B. A municipal infraction classified as an environmental violation is punishable by a penalty of not more than \$1,000.00 for each occurrence. However, an environmental violation is not subject to such penalty if all of the following conditions are satisfied:

- (1) The violation results solely from conducting an initial startup, cleaning, repairing, performing scheduled maintenance, testing, or conducting a shutdown of either equipment causing the violation or the equipment designed to reduce or eliminate the violation.
- (2) The City is notified of the violation within 24 hours from the time that the violation begins.
- (3) The violation does not continue in existence for more than eight hours.

A copy of the citation may be served by personal service as provided in Rule of Civil Procedure 1.305, by certified mail addressed to the defendant at defendant's last known mailing address, return receipt requested, or by publication in the manner as provided in Rule of Civil Procedure 1.310 and subject to the conditions of Rule of Civil Procedure 1.311. A copy of the citation shall be retained by the issuing officer, and the original citation shall be sent to the Clerk of the District Court. 3.05 ALTERNATIVE RELIEF. Seeking a civil penalty as authorized in this chapter does not preclude the City from seeking alternative relief from the court in the same action. Such alternative relief may include, but is not limited to, an order for abatement or injunctive relief.

(Code of Iowa, Sec. 364.22[8])

3.06 ALTERNATIVE PENALTIES. This chapter does not preclude a peace officer from issuing a criminal citation for a violation of this Code of Ordinances or regulation if criminal

penalties are also provided for the violation. Nor does it preclude or limit the authority of the City to enforce the provisions of this Code of Ordinances by criminal sanctions or other lawful means.

INDUSTRIAL PROPERTY TAX EXEMPTIONS

8.01 Purpose
8.02 Definitions
8.03 Period of Partial Exemption
8.04 Amounts Eligible for Exemption
8.05 Limitations

8.06 Applications
8.07 Approval
8.08 Exemption Repealed
8.09 Dual Exemptions Prohibited

8.01 PURPOSE. The purpose of this chapter is to provide for a partial exemption from property taxation of the actual value added to industrial real estate by the new construction of industrial real estate, research-service facilities, warehouses, and distribution centers.

8.02 DEFINITIONS. For use in this chapter the following terms are defined:

1. “Actual value added” means the actual value added as of the first year for which the exemption is received.
2. “Distribution center” means a building or structure used primarily for the storage of goods that are intended for subsequent shipment to retail outlets. Distribution center does not mean a building or structure used primarily to store raw agricultural products, used primarily by a manufacturer to store goods to be used in the manufacturing process, used primarily for the storage of petroleum products, or used for the retail sale of goods.
3. “New construction” means new buildings and structures and includes new buildings and structures that are constructed as additions to existing buildings and structures. New construction does not include reconstruction of an existing building or structure that does not constitute complete replacement of an existing building or structure or refitting of an existing building or structure unless the reconstruction of an existing building or structure is required due to economic obsolescence and the reconstruction is necessary to implement recognized industry standards for the manufacturing and processing of specific products and the reconstruction is required for the owner of the building or structure to continue competitively to manufacture or process those products, which determination shall receive prior approval from the City Council.
4. “Research-service facilities” means a building or group of buildings devoted primarily to research and development activities, including (but not limited to) the design and production or manufacture of prototype products for experimental use and corporate research services that do not have a primary purpose of providing on-site services to the public.
5. “Warehouse” means a building or structure used as a public warehouse for the storage of goods pursuant to Chapter 554, Article 7, of the *Code of Iowa*, except that it does not mean a building or structure used primarily to store raw agricultural products or from which goods are sold at retail.

8.03 PERIOD OF PARTIAL EXEMPTION. The actual value added to industrial real estate by the new construction of industrial real estate, research-service facilities, warehouses, and distribution centers is eligible to receive a partial exemption from taxation for a period of

five years. The exemption shall also apply to the acquisition of or improvement to machinery and equipment assessed as real estate pursuant to Section 427A.1[1e] of the *Code of Iowa*, unless the machinery or equipment is part of the normal replacement or operating process to maintain or expand the existing operational status.

(Code of Iowa, Sec. 427B.3)

8.04 AMOUNTS ELIGIBLE FOR EXEMPTION. The amount of actual value added, which is eligible to be exempt from taxation, shall be as follows:

(Code of Iowa, Sec. 427B.3)

1. For the first year, 75 percent.
2. For the second year, 60 percent.
3. For the third year, 45 percent.
4. For the fourth year, 30 percent.
5. For the fifth year, 15 percent.

8.05 LIMITATIONS. The granting of the exemption under this chapter for new construction constituting complete replacement of an existing building or structure shall not result in the assessed value of the industrial real estate being reduced below the assessed value of the industrial real estate before the start of the new construction added.

(Code of Iowa, Sec. 427B.3)

8.06 APPLICATIONS. An application shall be filed for each project resulting in actual value added for which an exemption is claimed.

(Code of Iowa, Sec. 427B.4)

1. The application for exemption shall be filed by the owner of the property with the local assessor by February 1 of the assessment year in which the value added is first assessed for taxation.
2. Applications for exemption shall be made on forms prescribed by the Director of Revenue and shall contain information pertaining to the nature of the improvement, its cost, and other information deemed necessary by the Director of Revenue.

8.07 APPROVAL. A person may submit a proposal to the City Council to receive prior approval for eligibility for a tax exemption on new construction. If the City Council resolves to consider such proposal, it shall publish notice and hold a public hearing thereon. Thereafter, at least 30 days after such hearing, the City Council, by ordinance, may give its prior approval of a tax exemption for new construction if the new construction is in conformance with City zoning. Such prior approval shall not entitle the owner to exemption from taxation until the new construction has been completed and found to be qualified real estate.

(Code of Iowa, Sec. 427B.4)

8.08 EXEMPTION REPEALED. When in the opinion of the City Council continuation of the exemption granted by this chapter ceases to be of benefit to the City, the City Council may repeal this chapter, but all existing exemptions shall continue until their expiration.

(Code of Iowa, Sec. 427B.5)

8.09 DUAL EXEMPTIONS PROHIBITED. A property tax exemption under this chapter shall not be granted if the property for which the exemption is claimed has received any other property tax exemption authorized by law.

(Code of Iowa, Sec. 364.12[3h])

50.06 ABATEMENT OF NUISANCE BY WRITTEN NOTICE. Any nuisance, public or private, may be abated in the manner provided for in this section:

 - A. Description of Nuisance. A description of what constitutes the nuisance.

[†] **EDITOR'S NOTE:** A suggested form of notice for the abatement of nuisances is included in the Appendix of this Code of Ordinances. Caution is urged in the use of this administrative abatement procedure, particularly where cost of abatement is more than minimal or where there is doubt as to whether or not a nuisance does in fact exist. If compliance is not secured following notice and hearings, we recommend you review the situation with your attorney before proceeding with abatement and assessment of costs. Your attorney may recommend proceedings in court under Chapter 657 of the *Code of Iowa* rather than this procedure.

- B. Location of Nuisance. The location of the nuisance.
 - C. Acts Necessary to Abate. A statement of the act or acts necessary to abate the nuisance.
 - D. Reasonable Time. A reasonable time within which to complete the abatement.
 - E. Assessment of City Costs. A statement that if the nuisance or condition is not abated as directed and no request for hearing is made within the time prescribed, the City will abate it and assess the costs against the property owner.
2. Method of Service. The notice may be in the form of an ordinance or sent by certified mail to the property owner.
(Code of Iowa, Sec. 364.12[3h])
3. Request for Hearing. Any person ordered to abate a nuisance may have a hearing with the Council as to whether a nuisance exists. A request for a hearing must be made in writing and delivered to the Clerk within the time stated in the notice, or it will be conclusively presumed that a nuisance exists and it must be abated as ordered. The hearing will be before the Council at a time and place fixed by the Council. The findings of the Council shall be conclusive and, if a nuisance is found to exist, it shall be ordered abated within a reasonable time under the circumstances.
4. Abatement in Emergency. If it is determined that an emergency exists by reason of the continuing maintenance of the nuisance or condition, the City may perform any action that may be required under this chapter without prior notice. The City shall assess the costs as provided in subsection 6 of this section after notice to the property owner under the applicable provisions of subsections 1 and 2, and the hearing as provided in subsection 3.
(Code of Iowa, Sec. 364.12[3h])
5. Abatement by City. If the person notified to abate a nuisance or condition neglects or fails to abate as directed, the City may perform the required action to abate, keeping an accurate account of the expense incurred. The itemized expense account shall be filed with the Clerk, who shall pay such expenses on behalf of the City.
(Code of Iowa, Sec. 364.12[3h])
6. Collection of Costs. The Clerk shall send a statement of the total expense incurred by certified mail to the property owner who has failed to abide by the notice to abate, and if the amount shown by the statement has not been paid within one month, the Clerk shall certify the costs to the County Treasurer and such costs shall then be collected with, and in the same manner as, general property taxes.
(Code of Iowa, Sec. 364.12[3h])
7. Installment Payment of Cost of Abatement. If the amount expended to abate the nuisance or condition exceeds \$500.00, the City may permit the assessment to be paid in up to 10 annual installments, to be paid in the same manner and with the same interest rates provided for assessments against benefited property under State law.
(Code of Iowa, Sec. 364.13)
8. Failure to Abate. Any person causing or maintaining a nuisance who shall fail or refuse to abate or remove the same within the reasonable time required and specified in the notice to abate is in violation of this Code of Ordinances.

50.07 MUNICIPAL INFRACTION ABATEMENT PROCEDURE. In lieu of the abatement procedures set forth in Section 50.06, the requirements of this chapter may be enforced under the procedures applicable to municipal infractions as set forth in Chapter 3 of this Code of Ordinances.

CHAPTER 56

DANGEROUS AND UNCONFINED DOGS

56.01 Definition

56.02 Keeping of Dangerous Dogs

56.03 Seizure, Impoundment and Disposition

56.04 Insurance

56.05 Violations and Penalties

56.01 DEFINITION. For the purpose of this Chapter, a “DANGEROUS DOG” means:

1. Any dog that has attacked, bitten, or clawed a person while running at large and the attack was unprovoked, or any dog that has exhibited dangerous or aggressive tendencies or past conduct, including any of the following that said dog:
 - a. Has bitten more than one person during the animal’s lifetime; or
 - b. Has bitten one person on two or more occasions during the animal’s lifetime; or

Has attacked any domestic animal or fowl without provocation, causing injury or death while off the property of the owner.

56.02 KEEPING OF DANGEROUS DOGS. Notwithstanding any other provisions of this chapter, no person owning, possessing, harboring, or having the care of a dangerous dog shall permit such animal to go unconfined upon the premises of such person and shall not permit the dog to go beyond the premises unless the dog is confined. A dangerous dog is unconfined unless the following conditions are met:

1. **Leash and Muzzle.** No person shall permit a dangerous dog to go outside its kennel or pen unless such dog is securely leashed with a leash no longer than four feet in length. No person shall permit a dangerous dog to be kept on a chain, rope, or other type of leash outside its kennel or pen unless a person is in physical control of the leash. Such dogs may not be leashed to inanimate objects such as trees, posts, buildings, etc. In addition, all dangerous dogs on a leash outside the animal’s kennel must be muzzled by a muzzling device sufficient to prevent the dog from biting persons or other animals.
2. **Confinement.** All dangerous dogs shall be securely confined indoors or in a securely enclosed and locked pen or kennel, except when leashed and muzzled as provided above. Such pen, kennel or structure must have secured sides and a secure top attached to the sides. All structures to confine dangerous dogs must be locked with a key or a combination lock when such animals are within the structure. Such structure must have a secure bottom or floor attached to the sides of the pen, or the sides of the pen must be embedded in the ground no less than two feet. All structures erected to house dangerous dogs must comply with all zoning and building regulations of the City. All such structures must be adequately lighted and ventilated and kept in a clean and sanitary condition.

No dangerous dog may be kept on a porch, patio or in any part of a house or structure that would allow the dog to exit such building on its own volition. In addition, no such animal may be kept in a house or structure when the windows are open or when screen windows or screen doors are the only obstacles preventing the dog from exiting the structure.

56.03 SEIZURE, IMPOUNDMENT AND DISPOSITION. Unconfined dangerous dogs shall be seized and impounded in accordance with the following:

1. The law enforcement officers, in their discretion or upon receipt of a complaint alleging that a particular dog is unconfined and dangerous as defined herein, may initiate proceedings to declare such dog as an unconfined and dangerous dog. A hearing on the matter shall be conducted by the City Council. The person owning, keeping, sheltering or harboring the animal in question shall be given not less than 72 hours' written notice of the time and place of said hearing. Said notice shall set forth the description of the dog in question and the basis for the allegation of being unconfined and dangerous. The notice shall also set forth that if the animal is determined to be an unconfined dangerous animal, the owner will be required to remove it from the City or allow it to be destroyed. The notice shall be served upon any adult residing at the premises where the animal is located or may be posted on those premises if no adult is present to accept service.
2. If after a hearing, the Council determines that an animal is unconfined and dangerous, the Council shall order the person owning, sheltering, harboring or keeping the animal to remove it from the City, or to cause it to be destroyed in a humane manner. The order shall immediately be served upon the person against whom issued in the same manner as the notice of hearing. If the order is not complied with within three days of its issuance, the law enforcement officers are authorized to seize and impound the dog. A dog so seized shall be impounded for a period of seven days. If at the end of the impoundment period, the person against whom the order of the Council was issued has not petitioned the District Court for a review of said order, the law enforcement officers shall cause the animal to be destroyed.
3. Failure to comply with an order of the Council issued pursuant hereto shall constitute a misdemeanor offense.
4. Any dog found at large which displays dangerous tendencies may be processed as an unconfined dog pursuant to the foregoing, unless the animal is so dangerous that it cannot safely be apprehended; in which case, the law enforcement officers may immediately destroy it, or unless its ownership is not ascertainable, in which case, it may be destroyed after three days' impoundment.
5. Any dog which is alleged to be an unconfined and dangerous animal and which is under impoundment or quarantine shall not be released to the owner but shall continue to be held at the expense of the owner pending the outcome of the hearing provided in this section. All costs of such impoundment or quarantine shall be paid by the owner if the animal is determined to be unconfined and dangerous. If the dog is not determined to be an unconfined and dangerous animal, all costs of such impoundment or quarantine shall be paid by the City.

56.04 INSURANCE. The owner of any dangerous dog must provide proof to the City Clerk of public liability insurance in a single accident amount of \$50,000.00 for bodily injury to or death of any person or persons or for damages to property owned by any such persons which may result from the ownership, keeping or maintenance of such animal. Such insurance policy shall provide that no cancellation of the policy shall be made unless 10 days' written notice is first given to the Clerk.

56.05 VIOLATIONS AND PENALTIES. Any persons violating or permitting the violation of any provision of this chapter shall, upon conviction, be guilty of a simple misdemeanor. Should the defendant refuse to remove the dog from the City, the magistrate shall find the defendant (owner) in contempt and order the immediate confiscation (impoundment) of the dog. Each day that a violation of this chapter continues shall be deemed a separate offense. In addition to the foregoing penalties, any person who violates this chapter shall pay all expenses, including shelter, food, handling, veterinary care and testimony necessitated by the enforcement of this chapter.

ABANDONED VEHICLES

80.01 Definitions	80.06 Disposal of Abandoned Vehicles
80.02 Authority to Take Possession of Abandoned Vehicles	80.07 Disposal of Totally Inoperable Vehicles
80.03 Notice by Mail	80.08 Proceeds from Sales
80.04 Notification in Newspaper	80.09 Duties of Demolisher
80.05 Fees for Impoundment	

80.01 DEFINITIONS. For use in this chapter, the following terms are defined:
(*Code of Iowa, Sec. 321.89[1] & Sec. 321.90*)

1. “Abandoned vehicle” means any of the following:
 - A. A vehicle that has been left unattended on public property for more than 24 hours and lacks current registration plates or two or more wheels or other parts which renders the vehicle totally inoperable.
 - B. A vehicle that has remained illegally on public property for more than 24 hours.
 - C. A vehicle that has been unlawfully parked or placed on private property without the consent of the owner or person in control of the property for more than 24 hours.
 - D. A vehicle that has been legally impounded by order of a police authority and has not been reclaimed for a period of 10 days. However, a police authority may declare the vehicle abandoned within the 10-day period by commencing the notification process.
 - E. Any vehicle parked on the highway determined by a police authority to create a hazard to other vehicle traffic.
 - F. A vehicle that has been impounded pursuant to Section 321J.4B of the *Code of Iowa* by order of the court and whose owner has not paid the impoundment fees after notification by the person or agency responsible for carrying out the impoundment order.
2. “Demolisher” means a person licensed under Chapter 321H of the *Code of Iowa* whose business it is to convert a vehicle to junk, processed scrap or scrap metal, or otherwise to wreck, or dismantle vehicles.
3. “Garage keeper” means any operator of a parking place or establishment, motor vehicle storage facility, or establishment for the servicing, repair, or maintenance of motor vehicles.
4. “Police authority” means the Iowa State Patrol or any law enforcement agency of a county or city.

80.02 AUTHORITY TO TAKE POSSESSION OF ABANDONED VEHICLES. A police authority, upon the authority’s own initiative or upon the request of any other authority having the duties of control of highways or traffic, shall take into custody an abandoned vehicle on public property and may take into custody any abandoned vehicle on private property. The police authority may employ its own personnel, equipment, and facilities or hire a private entity,

equipment, and facilities for the purpose of removing, preserving, storing, or disposing of abandoned vehicles. A property owner or other person in control of private property may employ a private entity that is a garage keeper to dispose of an abandoned vehicle, and the private entity may take into custody the abandoned vehicle without a police authority's initiative. If a police authority employs a private entity to dispose of abandoned vehicles, the police authority shall provide the private entity with the names and addresses of the registered owners, all lienholders of record, and any other known claimant to the vehicle or the personal property found in the vehicle.

(Code of Iowa, Sec. 321.89[2])

80.03 NOTICE BY MAIL. The police authority or private entity that takes into custody an abandoned vehicle shall notify, within 20 days, by certified mail, the last known registered owner of the vehicle, all lienholders of record, and any other known claimant to the vehicle or to personal property found in the vehicle, addressed to the parties' last known addresses of record, that the abandoned vehicle has been taken into custody. Notice shall be deemed given when mailed. The notice shall describe the year, make, model and vehicle identification number of the vehicle, describe the personal property found in the vehicle, set forth the location of the facility where the vehicle is being held, and inform the persons receiving the notice of their right to reclaim the vehicle and personal property within 10 days after the effective date of the notice upon payment of all towing, preservation, and storage charges resulting from placing the vehicle in custody and upon payment of the costs of the notice. The notice shall also state that the failure of the owner, lienholders or claimants to exercise their right to reclaim the vehicle or personal property within the time provided shall be deemed a waiver by the owner, lienholders and claimants of all right, title, claim and interest in the vehicle or personal property and that failure to reclaim the vehicle or personal property is deemed consent to the sale of the vehicle at a public auction or disposal of the vehicle to a demolisher and to disposal of the personal property by sale or destruction. If the abandoned vehicle was taken into custody by a private entity without a police authority's initiative, the notice shall state that the private entity may claim a garage keeper's lien as described in Section 321.90 of the *Code of Iowa*, and may proceed to sell or dispose of the vehicle. If the abandoned vehicle was taken into custody by a police authority or by a private entity hired by a police authority, the notice shall state that any person claiming rightful possession of the vehicle or personal property who disputes the planned disposition of the vehicle or property by the police authority or private entity or of the assessment of fees and charges provided by this section may ask for an evidentiary hearing before the police authority to contest those matters. If the persons receiving notice do not ask for a hearing or exercise their right to reclaim the vehicle or personal property within the 10-day reclaiming period, the owner, lienholders or claimants shall no longer have any right, title, claim, or interest in or to the vehicle or the personal property. A court in any case in law or equity shall not recognize any right, title, claim, or interest of the owner, lienholders or claimants after the expiration of the 10-day reclaiming period.

(Code of Iowa, Sec. 321.89[3a])

80.04 NOTIFICATION IN NEWSPAPER. If it is impossible to determine with reasonable certainty the identity and addresses of the last registered owner and all lienholders, notice by one publication in one newspaper of general circulation in the area where the vehicle was abandoned shall be sufficient to meet all requirements of notice under Section 80.03. The published notice may contain multiple listings of abandoned vehicles and personal property but shall be published within the same time requirements and contain the same information as prescribed for mailed notice in Section 80.03.

(Code of Iowa, Sec. 321.89[3b])

80.05 FEES FOR IMPOUNDMENT. The owner, lienholder, or claimant shall pay \$25.00 if claimed within five days of impounding, plus \$1.00 for each additional day within the reclaiming period plus towing charges, if stored by the City, or towing and storage fees, if stored in a public garage, whereupon said vehicle shall be released. The amount of towing charges, and the rate of storage charges by privately owned garages, shall be established by such facility.
(Code of Iowa, Sec. 321.89[3a])

80.06 DISPOSAL OF ABANDONED VEHICLES. If an abandoned vehicle has not been reclaimed as provided herein, the police authority or private entity shall make a determination as to whether or not the motor vehicle should be sold for use upon the highways, and shall dispose of the motor vehicle in accordance with State law.
(Code of Iowa, Sec. 321.89[4])

80.07 DISPOSAL OF TOTALLY INOPERABLE VEHICLES. The City or any person upon whose property or in whose possession is found any abandoned motor vehicle, or any person being the owner of a motor vehicle whose title certificate is faulty, lost or destroyed, may dispose of such motor vehicle to a demolisher for junk, without a title and without notification procedures, if such motor vehicle lacks an engine or two or more wheels or other structural part which renders the vehicle totally inoperable. The police authority shall give the applicant a certificate of authority. The applicant shall then apply to the County Treasurer for a junking certificate and shall surrender the certificate of authority in lieu of the certificate of title.
(Code of Iowa, Sec. 321.90[2e])

80.08 PROCEEDS FROM SALES. Proceeds from the sale of any abandoned vehicle shall be applied to the expense of auction, cost of towing, preserving, storing, and notification required, in accordance with State law. Any balance shall be held for the owner of the motor vehicle or entitled lienholder for 90 days, and then shall be deposited in the State Road Use Tax Fund. Where the sale of any vehicle fails to realize the amount necessary to meet costs the police authority shall apply for reimbursement from the Department of Transportation.
(Code of Iowa, Sec. 321.89[4])

80.09 DUTIES OF DEMOLISHER. Any demolisher who purchases or otherwise acquires an abandoned motor vehicle for junk shall junk, scrap, wreck, dismantle, or otherwise demolish such motor vehicle. A demolisher shall not junk, scrap, wreck, dismantle, or demolish a vehicle until the demolisher has obtained the junking certificate issued for the vehicle.

In the event of an emergency the Superintendent may make temporary rules for the protection of the system until due consideration by the Council may be had.

(Code of Iowa, Sec. 372.13[4])

90.03 MANDATORY CONNECTIONS. All residences and business establishments within the City limits intended or used for human habitation, occupancy or use shall be connected to the public water system, if it is reasonably available and if the building is not furnished with pure and wholesome water from some other source.

Work under any permit must be completed within 60 days after the permit is issued, except that when such time period is inequitable or unfair due to conditions beyond the control of the person making the application, an extension of time within which to complete the work may be granted. The permit may be revoked at any time for any violation of these chapters.

90.06 FEE FOR PERMIT AND CONNECTION CHARGE. Before any permit is issued the person who makes the application shall pay \$2.00 to the Clerk to cover the cost of issuing the permit and supervising, regulating, and inspecting the work. (Code of Iowa, Sec. 372.13[4])

1. Independent Services. No more than one house, building, or premises shall be supplied from one tap unless special written permission is obtained from the Superintendent and unless provision is made so that each house, building, or premises may be shut off independently of the other.
2. Sizes and Location of Taps. All mains six inches or less in diameter shall receive no larger than a three-fourths inch tap. All mains of over six inches in diameter shall receive no larger than a one-inch tap. All taps in the mains shall be made in the top half of the pipe, at least 18 inches apart. No main shall be tapped nearer than two feet of the joint in the main.
3. Corporation Stop. A brass corporation stop, of the pattern and weight approved by the Superintendent, shall be inserted in every tap in the main. The corporation stop in the main shall be of the same size as the service pipe.

4. Location Record. An accurate and dimensional sketch showing the exact location of the tap shall be filed with the Superintendent in such form as the Superintendent shall require.

90.11 INSTALLATION OF WATER SERVICE PIPE. Water service pipes from the main to the meter setting shall be Type K copper. The use of any other pipe material for the service line shall first be approved by the Superintendent. All costs and expenses incident to the installation, connection, and maintenance of the water service pipe from the main to the building served shall be borne by the owner. The owner shall indemnify the City from any loss or damage that may directly or indirectly be occasioned by the installation or maintenance of said water service pipe.

(Code of Iowa, Sec. 364.12[3a & h])

90.14 CURB VALVE. There shall be installed within the public right-of-way a main shut-off valve on the water service pipe of a pattern approved by the Superintendent. The shut-off valve shall be constructed to be visible and even with the pavement or ground.

90.15 INTERIOR VALVE. There shall be installed a shut-off valve on every service pipe inside the building as close to the entrance of the pipe within the building as possible and so located that the water can be shut off conveniently. Where one service pipe supplies more than one customer within the building, there shall be separate valves for each such customer so that service may be shut off for one without interfering with service to the others.

90.16 INSPECTION AND APPROVAL. All water service pipes and their connections to the water system must be inspected and approved in writing by the Superintendent before they are covered, and the Superintendent shall keep a record of such approvals. If the Superintendent refuses to approve the work, the plumber or property owner must proceed immediately to correct the work. Every person who uses or intends to use the municipal water system shall permit the Superintendent to enter the premises to inspect or make necessary alterations or repairs at all reasonable hours and on proof of authority.

90.17 COMPLETION BY THE CITY. Should any excavation be left open or only partly refilled for 24 hours after the water service pipe is installed and connected with the water system, or should the work be improperly done, the City shall have the right to finish or correct the work, and the Council shall assess the costs to the property owner or the plumber. If the plumber is assessed, the plumber must pay the costs before receiving another permit. If the property owner is assessed, such assessment may be collected with and in the same manner as general property taxes.

(Code of Iowa, Sec. 364.12[3a & h])

90.18 SHUTTING OFF WATER SUPPLY. The Superintendent may shut off the supply of water to any customer because of any violation of the regulations contained in these Water Service System chapters that is not being contested in good faith. The supply shall not be turned

90.19 OPERATION OF CURB VALVE AND HYDRANTS. It is unlawful for any person except the Superintendent to turn water on at the curb valve, and no person, unless specifically authorized by the City, shall open or attempt to draw water from any fire hydrant for any purpose whatsoever.

90.20 BACK FLOW PREVENTION TESTING. Customers of all user types who have booster pumps which are directly tied to the water system are required to have annual back flow prevention testing completed in accordance with the *State Plumbing Code*, by an independent contractor who is pre-approved by the City.

3. Hearing. If a hearing is requested by noon of the day preceding the shut off, the Council shall conduct an informal hearing and shall make a determination as to whether the discontinuance or disconnection is justified. If the Council finds that discontinuance or disconnection is justified, then such discontinuance or disconnection shall be made, unless payment has been received.

92.07 LIEN EXEMPTION.

(Code of Iowa, Sec. 384.84)

1. Water Service Exemption. The lien for nonpayment shall not apply to charges for water service to a residential or commercial rental property where water service is separately metered and the rates or charges for the water service are paid directly to the City by the tenant, if the landlord gives written notice to the City that the property is residential or commercial rental property and that the tenant is liable for the rates or charges. The City may require a deposit not exceeding the usual cost of 90 days of such services to be paid to the City. When the tenant moves from the rental property, the City shall refund the deposit if all service charges are paid in full. The lien exemption does not apply to delinquent charges for repairs related to any of the services.

2. Other Service Exemption. The lien for nonpayment shall also not apply to the charges for any of the services of sewer systems, storm water drainage systems, sewage treatment, solid waste collection, and solid waste disposal for a residential rental property where the charge is paid directly to the City by the tenant, if the landlord gives written notice to the City that the property is residential rental property and that the tenant is liable for the rates or charges for such service. The City may require a deposit not exceeding the usual cost of 90 days of such services to be paid to the City. A change in tenant for a commercial rental property shall require a new written notice to be given to the City within 10 business days of the change in tenant. A change in the ownership of the residential rental property shall require written notice of such change to be given to the City within 30 business days of the completion of the change of ownership. A change in the ownership of the commercial rental property shall require written notice of such change to be given to the City within 10 business days of the completion of the change of ownership.

4. Mobile Homes, Modular Homes, and Manufactured Homes. A lien for nonpayment of utility services described in subsections 1 and 2 of this section shall not be placed upon a premises that is a mobile home, modular home, or manufactured home if the mobile home, modular home, or manufactured home is owned by a tenant of and located in a mobile home park or manufactured home community and the mobile home park or manufactured home community owner or manager is the account holder, unless the lease agreement specifies that the tenant is responsible for payment of a portion of the rates or charges billed to the account holder.

92.08 LIEN NOTICE. A lien for delinquent water service charges shall not be certified to the County Treasurer unless prior written notice of intent to certify a lien is given to the customer in whose name the delinquent charges were incurred. ¹ Deep and shallow wells, as defined in IAC 567-40.2(455B): A deep well is a well located and constructed in such a manner that there is a continuous layer of low permeability soil or rock at least five feet thick located at least 25 feet below the normal ground surface and above the aquifer from which water is to be drawn. A shallow well is a well located and constructed in such a manner that there is not a continuous layer of low permeability soil or rock (or equivalent retarding mechanism acceptable to the department) at least five feet thick, the top of which is located at least 25 feet below the normal ground surface and above the aquifer from which water is to be drawn.

² The separation distances are dependent upon two factors: the type of piping that is in the existing sewer or drain, as noted in the table, and that the piping was properly installed in accordance with the standards.

³ Solid wastes are those derived from the treatment of water or wastewater. Certain types of solid wastes from water treatment processes may be land-applied within the separation distance on an individual, case-by-case basis.

⁴ Solid waste means garbage, refuse, rubbish, and other similar discarded solid or semisolid materials, including but not limited to such materials resulting from industrial, commercial, agricultural, and domestic activities.

93.03 ENFORCEMENT AND PENALTIES.

1. The Water Superintendent is designated as the Wellhead Protection Officer unless another person is specifically designated by the Council to supervise the implementation and enforcement of this chapter.
2. The Wellhead Protection Inspector shall be the Water Superintendent.
3. No building permit shall be issued which is a violation of the Iowa Department of Natural Resources *Separation Distance from Wells*, a violation of this chapter or a source of contamination for a City well.
4. No new underground tanks will be allowed for auxiliary fuel storage in the Primary or Secondary Zones.
5. Any person who fails to comply with the provisions of this chapter shall be subject to provisions and penalties provided in Chapter 3 of this Code of Ordinances, entitled MUNICIPAL INFRACTIONS.

93.04 INSPECTIONS.

1. The Wellhead Protection Inspector shall have the power and authority to enter and inspect all buildings, structures and land within all wellhead protection zones for the purpose of making an inspection. Failure of a person having authority over a property to permit an inspection shall be sufficient grounds and probable cause for a court of competent jurisdiction to issue a search warrant to the Protection Officer to inspect such premises.
2. In the event a building or structure appears to be vacant or abandoned, and the owner cannot be readily contacted in order to obtain consent for an inspection, the officer or inspector may enter into or upon any open unsecured portion of the premises in order to conduct an inspection thereof.
3. The Wellhead Protection Officer or Inspector shall inspect each City well annually and shall maintain an inventory, if applicable, of all hazardous substances which exist within the Primary and Secondary Protection Zones. One format that may be used is Iowa DNR Form, OMB No. 2050-0072. MSDS sheets on these chemicals will be made available to the Inspector.

93.05 NOTICE OF VIOLATION AND HEARING. Whenever an officer or an inspector determines that there is a violation of this chapter, said officer shall give notice thereof, and such notice of violation shall:

1. Be in writing;
2. Be dated and signed by the officer or inspector;
3. Specify the violation or violations; and
4. State that said violation shall be corrected within 10 days of the date on which the inspector issued the notice of violation.

93.03 INJUNCTIVE RELIEF. If any person who engages in nonresidential activities stores, handles, uses and/or produces toxic substances within the wellhead protection zones, as indicated on the Zone of Protection Maps, continues to operate in violation of the provisions of this chapter, then the City may file an action for injunctive relief in the court of jurisdiction.

CHAPTER 94

WATER CONSERVATION

94.01 Purpose

94.02 Definition

94.03 Water Watch Restrictions

94.04 Water Warning Restrictions

94.05 Water Emergency Restrictions

94.06 Penalties

94.01 PURPOSE. The purpose of this chapter is to control water usage during the time when the City Council declares a water shortage.

94.02 DEFINITION. A water shortage exists whenever, for reasons of drought conditions, consumer demand, or treatment plant or distribution systems operation or maintenance, water quantity and quality cannot be maintained at a level sufficient to meet the demands of the customers using the system. Whenever, in the opinion of the Superintendent, conditions exist which create a water shortage, the Superintendent shall have the authority to declare a Water Watch, a Water Warning or a Water Emergency, during which time the following measures and provisions shall be in effect to produce an orderly and equitable reduction of water consumption. Whenever the Superintendent finds that the conditions which gave rise to the Water Watch, Water Warning or Water Emergency no longer exist, said officer is authorized to either declare the termination of the Water Watch, Water Warning or Water Emergency or reduce the type of emergency and reduce the conditions set forth below.

94.03 WATER WATCH RESTRICTIONS. When a Water Watch has been declared, all customers of the municipal water service are encouraged to limit or curtail all nonessential uses of water in order to preserve precious water resources during the time of the shortage or drought. Customers shall comply with the following standards:

1. Outdoor watering or irrigation of lawns, flower and vegetable gardens is prohibited except as follows:
 - A. Customers with even house numbers will be allowed to use water for outside purposes on even numbered days between the hours of 9:00 p.m. and 5:00 a.m.
 - B. Customers with odd house numbers will be allowed to use water for outside purposes on odd numbered days between the hours of 9:00 p.m. and 5:00 a.m.
2. No water should be used to fill private swimming pools, children's wading pools, reflecting pools or any other outdoor pool or pond.
3. No water should be used to wash streets, parking lots, driveways, sidewalks or building exteriors.
4. Car washing is prohibited except in commercial establishments that provide that service.

94.04 WATER WARNING RESTRICTIONS. When a Water Warning has been declared, all customers of the municipal water service are encouraged to limit or curtail all nonessential uses of water in order to preserve precious water resources during the time of the shortage or drought. Customers shall comply with the following standards:

1. Outdoor watering or irrigation of lawns, flower and vegetable gardens is prohibited except as follows. Customers may water on weekends only as follows:
 - A. Friday evening from 9:00 p.m. to 5:00 a.m. on Saturday morning; and
 - B. Saturday evening from 9:00 p.m. to 5:00 a.m. on Sunday morning.
2. No water should be used to fill private swimming pools, children's wading pools, reflecting pools or any other outdoor pool or pond.
3. No water should be used to wash streets, parking lots, driveways, sidewalks or building exteriors.
4. Car washing is prohibited except in commercial establishments that provide that service.

94.05 WATER EMERGENCY RESTRICTIONS. When a Water Emergency has been declared, all customers of the municipal water service shall comply with the following standards:

1. Outdoor watering or irrigation of lawns, flower and vegetable gardens is prohibited.
2. No water should be used to fill private swimming pools, children's wading pools, reflecting pools or any other outdoor pool or pond.
3. No water should be used to wash streets, parking lots, driveways, sidewalks or building exteriors.
4. No water should be used for nonessential cleaning of commercial and industrial equipment, machinery and interior spaces.
5. Car washing is prohibited except in commercial establishments that provide that service.

Water reclaimed or recycled after some other primary use, such as water that has been used for washing or cooling, may be used without restriction. Additionally, water derived from sources other than the City water utility, such as water condensed from the atmosphere by air conditioners or collected from rain or snow, may be used without restriction.

94.06 PENALTIES. The following penalties shall apply for violation of Water Watch, Water Warning or Water Emergency use restrictions imposed under this chapter:

1. First Violation. For a first violation, the utility shall issue a written notice of violation to the water user violating the water use restrictions imposed during a Water Watch, Water Warning or Water Emergency.
2. Second Violation. For a second violation, the utility shall impose a \$50.00 fine to the water user violating the water use restrictions imposed during a Water Watch, Water Warning or Water Emergency.
3. Third Violation. For a third violation, the utility shall impose a \$100 fine to the water user violating the water use restrictions imposed during a Water Watch, Water Warning or Water Emergency.
4. Fourth Violation. For a fourth violation, the utility shall disconnect the water to the property in violation of the use restrictions imposed during a Water Watch, Water Warning or Water Emergency and impose a fine of \$100.00 and a fine of \$25.00, which represents the mandatory reconnect fee.

Any customer charged with a violation of the Water Watch, Water Warning or Water Emergency use restrictions may request a hearing with the City Council. The Council may conclude that a violation did not occur or that the circumstances under which the violation occurred warrant a complete or partial mitigation of the penalty.

A separate and independent building sewer shall be provided for every occupied building; except where one building stands at the rear of another on an interior lot and no private sewer is available or can be constructed to the rear building through an adjoining alley, court, yard, or driveway. In such cases the building sewer from the front building may be extended to the rear building and the whole considered as one building sewer.
3. Installation. The installation and connection of the building sewer to the public sewer shall conform to the requirements of the *State Plumbing Code* and applicable rules and regulations of the City. All such connections shall be made gastight and

watertight. Any deviation from the prescribed procedures and materials must be approved by the Superintendent before installation.

4. Water Lines. When possible, building sewers should be laid at least 10 feet horizontally from a water service. The horizontal separation may be less, provided the water service line is located at one side and at least 12 inches above the top of the building sewer.

5. Size. Building sewers shall be sized for the peak expected sewage flow from the building with a minimum building sewer size of four inches.

6. Alignment and Grade. All building sewers shall be laid to a straight line to meet the following:

- A. Recommended grade at one-fourth inch per foot.
- B. Minimum grade of one-eighth inch per foot.
- C. Minimum velocity of two feet per second with the sewer half full.
- D. Any deviation in alignment or grade shall be made only with the written approval of the Superintendent and shall be made only with approved fittings.

7. Depth. Whenever possible, the building sewer shall be brought to the building at an elevation below the basement floor. The depth of cover above the sewer shall be sufficient to afford protection from frost.

8. Sewage Lifts. In all buildings in which any building drain is too low to permit gravity flow to the public sewer, sanitary sewage carried by such drain shall be lifted by approved artificial means and discharged to the building sewer.

9. Pipe Specifications. Building sewer pipe shall be free from flaws, splits, or breaks. Materials shall be as specified in the *State Plumbing Code* except that the building sewer pipe, from the property line to the public sewer, shall comply with the current edition of one of the following:

- A. Clay sewer pipe – A.S.T.M. C-700 (extra strength).
- B. Extra heavy cast iron soil pipe – A.S.T.M. A-74.
- C. Ductile iron water pipe – A.W.W.A. C-151.
- D. P.V.C. – SDR26 – A.S.T.M. D-3034.

10. Bearing Walls. No building sewer shall be laid parallel to or within three feet of any bearing wall that might thereby be weakened.

11. Jointing. Fittings, type of joint and jointing material shall be compatible with the type of pipe used, subject to the approval of the Superintendent. Solvent-welded joints are not permitted.

12. Unstable Soil. No sewer connection shall be laid so that it is exposed when crossing any watercourse. Where an old watercourse must of necessity be crossed or where there is any danger of undermining or settlement, cast iron soil pipe or vitrified clay sewer pipe thoroughly encased in concrete shall be required for such crossings. Such encasement shall extend at least six inches on all sides of the pipe. The cast iron pipe or encased clay pipe shall rest on firm, solid material at either end.

13. Preparation of Basement or Crawl Space. No connection for any residence, business or other structure with any sanitary sewer shall be made unless the basement

floor is poured, or in the case of a building with a slab or crawl space, unless the ground floor is installed with the area adjacent to the foundation of such building cleared of debris and backfilled. The backfill shall be well compacted and graded so that the drainage is away from the foundation. Prior to the time the basement floor is poured, or the first floor is installed in buildings without basements, the sewer shall be plugged and the plug shall be sealed by the Superintendent. Any accumulation of water in any excavation or basement during construction and prior to connection to the sanitary sewer shall be removed by means other than draining into the sanitary sewer.

96.06 INTERCEPTORS REQUIRED. Grease, oil, sludge and sand interceptors shall be provided by gas and service stations, convenience stores, car washes, garages, and other facilities when, in the opinion of the Superintendent, they are necessary for the proper handling of such wastes that contain grease in excessive amounts or any flammable waste, sand or other harmful ingredients. Such interceptors shall not be required for private living quarters or dwelling units. When required, such interceptors shall be installed in accordance with the following:

1. Design and Location. All interceptors shall be of a type and capacity as specified in the *State Plumbing Code*, to be approved by the Superintendent, and shall be located so as to be readily and easily accessible for cleaning and inspection.
2. Construction Standards. The interceptors shall be constructed of impervious material capable of withstanding abrupt and extreme changes in temperature. They shall be of substantial construction, watertight and equipped with easily removable covers that shall be gastight and watertight.
3. Maintenance. All such interceptors shall be maintained by the owner at the owner's expense and shall be kept in continuously efficient operations at all times.

96.07 SEWER TAP. Connection of the building sewer into the public sewer shall be made at the "Y" branch, if such branch is available at a suitable location. If no properly located "Y" branch is available, a saddle "Y" shall be installed at the location specified by the Superintendent. The public sewer shall be tapped with a tapping machine and a saddle appropriate to the type of public sewer shall be glued or attached with a gasket and stainless steel clamps to the sewer. At no time shall a building sewer be constructed so as to enter a manhole unless special written permission is received from the Superintendent and in accordance with the Superintendent's direction if such connection is approved.

96.08 INSPECTION REQUIRED. All connections with the sanitary sewer system before being covered shall be inspected and approved, in writing, by the Superintendent. As soon as all pipe work from the public sewer to inside the building has been completed, and before any backfilling is done, the Superintendent shall be notified and the Superintendent shall inspect and test the work as to workmanship and material; no sewer pipe laid underground shall be covered or trenches filled until after the sewer has been so inspected and approved. If the Superintendent refuses to approve the work, the plumber or owner must proceed immediately to correct the work.

96.09 PROPERTY OWNER'S RESPONSIBILITY. All costs and expenses incident to the installation, connection, and maintenance of the building sewer shall be borne by the owner. The owner shall indemnify the City from any loss or damage that may directly or indirectly be occasioned by the installation of the building sewer.

96.10 ABATEMENT OF VIOLATIONS. Construction or maintenance of building sewer lines, whether located upon the private property of any owner or in the public right-of-way, which construction or maintenance is in violation of any of the requirements of this chapter, shall be corrected, at the owner's expense, within 30 days after date of official notice from the Council of such violation. If not made within such time, the Council shall, in addition to the other penalties herein provided, have the right to finish and correct the work and assess the cost thereof to the property owner. Such assessment shall be collected with and in the same manner as general property taxes.

97.01 STORM WATER. No person shall discharge or cause to be discharged any storm water, surface water, groundwater, roof run-off, sub-surface drainage, uncontaminated cooling water, or unpolluted industrial process waters to any sanitary sewer. Storm water and all other unpolluted drainage shall be discharged to such sewers that are specifically designated as combined sewers or storm sewers or to a natural outlet approved by the Superintendent. Industrial cooling water or unpolluted process waters may be discharged on approval of the Superintendent, to a storm sewer, combined sewer, or natural outlet.

97.02 SURFACE WATERS EXCEPTION. Special permits for discharging surface waters to a public sanitary sewer may be issued by the Council upon recommendation of the Superintendent where such discharge is deemed necessary or advisable for purposes of flushing, but any permit so issued shall be subject to revocation at any time when deemed to the best interests of the sewer system.

97.03 PROHIBITED DISCHARGES. No person shall discharge or cause to be discharged any of the following described waters or wastes to any public sewers:

1. Flammable or Explosive Material. Any gasoline, benzene, naphtha, fuel oil, or other flammable or explosive liquid, solid, or gas.
2. Toxic or Poisonous Materials. Any waters or wastes containing toxic or poisonous solids, liquids or gases in sufficient quantity, either singly or by interaction with other wastes, to injure or interfere with any sewage treatment process, constitute a hazard to humans or animals, create a public nuisance, or create any hazard in the receiving waters of the sewage treatment plant, including but not limited to cyanides in excess of two milligrams per liter as CN in the wastes as discharged to the public sewer.
3. Corrosive Wastes. Any waters or wastes having a pH lower than 5.5 or having any other corrosive property capable of causing damage or hazard to structures, equipment, and personnel of the sewage works.
4. Solid or Viscous Substances. Solid or viscous substances in quantities or of such size capable of causing obstruction to the flow in sewers, or other interference with the proper operation of the sewage works such as, but not limited to, ashes, cinders, sand, mud, straw, shavings, metal, glass, rags, feathers, tar, plastics, wood, unground garbage, whole blood, paunch manure, hair and fleshings, entrails and paper dishes, cups, milk containers, etc., either whole or ground by garbage grinders.

average daily flow greater than two percent of the average sewage flow of the City, shall be subject to the review of the Superintendent.

B. Where necessary in the opinion of the Superintendent, the owner shall provide, at the owner's expense, such preliminary treatment as may be necessary to: (i) reduce the biochemical oxygen demand to 300 parts per million by weight; or (ii) reduce the suspended solids to 350 parts per million by weight; or (iii) control the quantities and rates of discharge of such waters or wastes. Plans, specifications, and any other pertinent information relating to proposed preliminary treatment facilities shall be submitted for the approval of the Superintendent and no construction of such facilities shall be commenced until said approvals are obtained in writing.

97.04 RESTRICTED DISCHARGES. No person shall discharge or cause to be discharged the following described substances, materials, waters, or wastes if it appears likely in the opinion of the Superintendent that such wastes can harm either the sewers, sewage treatment process, or equipment, have an adverse effect on the receiving stream or can otherwise endanger life, limb, public property, or constitute a nuisance. In forming an opinion as to the acceptability of these wastes, the Superintendent will give consideration to such factors as the quantities of subject wastes in relation to flows and velocities in the sewers, materials of construction of the sewers, nature of the sewage treatment process, capacity of the sewage treatment plant, degree of treatability of wastes in the sewage treatment plant, and other pertinent factors. The substances restricted are:

1. High Temperature. Any liquid or vapor having a temperature higher than 150 degrees F (65 degrees C).
2. Fat, Oil, Grease. Any water or waste containing fats, wax, grease or oils, whether emulsified or not, in excess of 100 milligrams per liter or 600 milligrams per liter of dispersed or other soluble matter.
3. Viscous Substances. Water or wastes containing substances that may solidify or become viscous at temperatures between 32 degrees F and 150 degrees F (0 degrees to 65 degrees C).
4. Garbage. Any garbage that has not been properly shredded, that is, to such a degree that all particles will be carried freely under the flow conditions normally prevailing in public sewers, with no particle greater than one-half inch in any dimension.
5. Acids. Any waters or wastes containing strong acid iron pickling wastes, or concentrated plating solution whether neutralized or not.
6. Toxic or Objectionable Wastes. Any waters or wastes containing iron, chromium, copper, zinc, and similar objectionable or toxic substances; or wastes exerting an excessive chlorine requirement, to such degree that any such material received in the composite sewage at the sewage treatment works exceeds the limits established by the Superintendent for such materials.
7. Odor or Taste. Any waters or wastes containing phenols or other taste or odor producing substances, in such concentrations exceeding limits that may be established by the Superintendent as necessary, after treatment of the composite sewage, to meet the requirements of State, federal, or other public agencies of jurisdiction for such discharge to the receiving waters.

8. Radioactive Wastes. Any radioactive wastes or isotopes of such half-life or concentration as may exceed limits established by the Superintendent in compliance with applicable State or federal regulations.
9. Excess Alkalinity. Any waters or wastes having a pH in excess of 9.5.
10. Unusual Wastes. Materials that exert or cause:
 - A. Unusual concentrations of inert suspended solids (such as, but not limited to, Fullers earth, lime slurries, and lime residues) or of dissolved solids (such as, but not limited to, sodium chloride and sodium sulfate).
 - B. Excessive discoloration (such as, but not limited to, dye wastes and vegetable tanning solutions).
 - C. Unusual B.O.D., chemical oxygen demand or chlorine requirements in such quantities as to constitute a significant load on the sewage treatment works.
 - D. Unusual volume of flow or concentration of wastes constituting "slugs" as defined herein.
11. Noxious or Malodorous Gases. Any noxious or malodorous gas or other substance that, either singly or by interaction with other wastes, is capable of creating a public nuisance or hazard to life or of preventing entry into sewers for their maintenance and repair.
12. Damaging Substances. Any waters, wastes, materials, or substances that react with water or wastes in the sewer system to release noxious gases, develop color of undesirable intensity, form suspended solids in objectionable concentration or create any other condition deleterious to structures and treatment processes.
13. Untreatable Wastes. Waters or wastes containing substances that are not amenable to treatment or reduction by the sewage treatment processes employed, or are amenable to treatment only to such degree that the sewage treatment plant effluent cannot meet the requirements of other agencies having jurisdiction over discharge to the receiving waters.

97.05 RESTRICTED DISCHARGES; POWERS OF SUPERINTENDENT. If any waters or wastes are discharged or are proposed to be discharged to the public sewers, which waters contain the substances or possess the characteristics enumerated in Section 97.04 and which in the judgment of the Superintendent may have a deleterious effect upon the sewage works, processes, equipment, or receiving waters, or which otherwise create a hazard to life or constitute a public nuisance, the Superintendent may:

1. Rejection. Reject the wastes by requiring disconnection from the public sewage system;
2. Pretreatment. Require pretreatment to an acceptable condition for discharge to the public sewers;
3. Controls Imposed. Require control over the quantities and rates of discharge; and/or
4. Special Charges. Require payment to cover the added cost of handling and treating the wastes not covered by existing taxes or sewer charges under the provisions of Chapter 99.

97.06 SPECIAL FACILITIES. If the Superintendent permits the pretreatment or equalization of waste flows, the design and installation of the plants and equipment shall be subject to the review and approval of the Superintendent and subject to the requirements of all applicable codes, ordinances, and laws. Where preliminary treatment or flow-equalizing facilities are provided for any waters or wastes, they shall be maintained continuously in satisfactory and effective operation by the owner at the owner's expense.

97.07 CONTROL MANHOLES. When required by the Superintendent, the owner of any property serviced by a building sewer carrying industrial wastes shall install a suitable control manhole together with such necessary meters and other appurtenances in the building sewer to facilitate observation, sampling, and measurement of the wastes. Such manhole, when required, shall be accessibly and safely located, and shall be constructed in accordance with plans approved by the Superintendent. The manhole shall be installed by the owner at the owner's expense, and shall be maintained by the owner so as to be safe and accessible at all times.

97.08 TESTING OF WASTES. All measurements, tests, and analyses of the characteristics of waters and wastes to which reference is made in this chapter shall be determined in accordance with the latest edition of *Standard Methods for the Examination of Water and Wastewater*, published by the American Public Health Association, and shall be determined at the control manhole provided, or upon suitable samples taken at said control manhole. In the event that no special manhole has been required, the control manhole shall be considered to be the nearest downstream manhole in the public sewer to the point at which the building sewer is connected. Sampling shall be carried out by customarily accepted methods to reflect the effect of constituents upon the sewage works and to determine the existence of hazards to life, limb, and property. (The particular analyses involved will determine whether a 24-hour composite of all outfalls of a premises is appropriate or whether a grab sample or samples should be taken. Normally, but not always, B.O.D. and suspended solids analyses are obtained from 24-hour composites of all outfalls whereas pH's are determined from periodic grab samples).

99.02 SPECIAL RATES.

1. Where, in the judgment of the Superintendent and the Council, special conditions exist to the extent that the application of the sewer charges provided in Section 99.01 would be inequitable or unfair to either the City or the customer, a special rate shall be proposed by the Superintendent and submitted to the Council for approval by resolution.

2. Any user which discharges any toxic pollutants which cause an increase in the cost of managing the effluent or the sludge from the City's treatment works, or any user which discharges any substance which singly or by interaction with other substances causes identifiable increases in the cost of operation, maintenance or replacement of the treatment works, shall pay for such increased costs. The charge to each such user shall be as determined by the responsible plant operating personnel and approved by the Council.

(Code of Iowa, Sec. 384.84)

99.03 PRIVATE WATER SYSTEMS. Customers whose premises are served by a private water system shall pay sewer charges based upon the water used as determined by the City either by an estimate agreed to by the customer or by metering the water system at the customer's expense. Any negotiated or agreed-upon sales or charges shall be subject to approval of the Council.

99.06 SPECIAL AGREEMENTS PERMITTED. No statement in these chapters shall be construed as preventing a special agreement, arrangement, or contract between the Council, and any industrial concern whereby an industrial waste of unusual strength or character may be accepted subject to special conditions, rate, and cost as established by the Council.

99.07 REVIEW AND NOTIFICATION.

1. The City will review the user charge system at least every two years and revise user charge rates as necessary to ensure that the system generates adequate revenues to pay the costs of operation and maintenance including replacement and that the system continues to provide for the proportional distribution of operation and maintenance costs among users and user classes.
2. The City will notify each user at least annually, in conjunction with a regular bill, of the rate being charged for operation and maintenance including replacement of the treatment works.

105.03 SANITARY DISPOSAL REQUIRED. It is the duty of each owner to provide for the sanitary disposal of all refuse accumulating on the owner's premises before it becomes a

nuisance. Any such accumulation remaining on any premises for a period of more than 30 days shall be deemed a nuisance and the City may proceed to abate such nuisances in accordance with the provisions of Chapter 50 or by initiating proper action in district court.

(Code of Iowa, Ch. 657)

105.04 HEALTH AND FIRE HAZARD. It is unlawful for any person to permit to accumulate on any premises, improved or vacant, or on any public place, such quantities of solid waste that constitute a health, sanitation or fire hazard.

105.05 OPEN BURNING RESTRICTED. No person shall allow, cause or permit open burning of combustible materials where the products of combustion are emitted into the open air without passing through a chimney or stack, except that open burning is permitted in the following circumstances:

(IAC, 567-23.2[455B] and 567-100.2)

1. Disaster Rubbish. The open burning of rubbish, including landscape waste, for the duration of the community disaster period in cases where an officially declared emergency condition exists, provided that the burning of any structures or demolished structures is conducted in accordance with 40 CFR Section 61.145.

110.02 RIGHTS AND PRIVILEGES. The rights and privileges hereby granted are subject to the restrictions and limitations of Chapter 364 of the *Code of Iowa* or as subsequently amended or changed.

110.03 PIPES AND MAINS. The Company shall have the right to excavate in any public street for the purpose of laying, re-laying, repairing or extending gas pipes, mains, conduits, and other facilities provided that the same shall be so placed as not to interfere with the construction of any water pipes, drain or sewer or the flow of water therefrom, which have been or may hereafter be located by authority of the City.

110.04 CONSTRUCTION AND MAINTENANCE. The Company shall, excluding facilities located in private easements (whether titled in Company exclusively or in Company and other entities), in accordance with Iowa law including Company's tariff on tile with and made effective by the Iowa Utilities Board as may subsequently be amended (“Tariff”), at its cost and expense, locate and relocate its existing facilities or equipment in, on, over or under any public street or alley in the City in such a manner as the City may reasonably require for the purposes of facilitating the construction, reconstruction, maintenance or repair of the street or alley. be responsible for surveying and staking the right-of-way for City projects that require the Company to relocate Company facilities. If requested the City shall provide, at no cost to the Company, copies of its relocation plan and profile and cross-section drawings. If tree removals must be completed by the City as part of the City's project and are necessary whether or not utility facilities must be relocated, the City at its own cost shall be responsible for said removals. If the timing of the tree removals does not coincide with the Company facilities relocation schedule and Company must remove trees that are included in the City's portion of the project, the City shall either remove the trees at its cost or reimburse the Company for the expenses incurred to remove said trees. If project funds from a source other than the City are available to pay for the relocation of utility facilities, the City shall attempt to secure said funds and provide them to the Company to compensate the Company for the costs of relocation.

110.05 EXCAVATIONS. In making excavations in any streets, avenues, alleys and public places for the installation of gas pipes, conduits or apparatus, Company shall not unreasonably obstruct the use of the streets and shall replace the surface, restoring it to the condition as existed immediately prior to excavation. Company agrees any replacement of road surface shall conform to current City code regarding its depth and composition. The Company shall not be required to restore or modify public right of way, sidewalks or other areas in or adjacent to the Company project to a condition superior to its immediate previously existing condition or to a condition exceeding its previously existing condition to the extent any alterations are required for the City to comply with City, State or federal rules, regulations or laws.

110.06 UTILITY EASEMENTS. Vacating a street, avenue, alley, public ground or public right-of-way shall not deprive the Company of its right to operate and maintain existing facilities on, below, above, or beneath the vacated property. Prior to the City abandoning or vacating any street, avenue, alley or public ground where the Company has facilities in the vicinity, the City shall provide Company with not less than 60 days' advance notice of the City's proposed action and, upon request grant the Company a utility easement covering existing and future facilities and activities. If the City fails to grant the Company a utility easement for said facilities prior to abandoning or vacating a street, avenue, alley or public ground, the City shall at its cost and expense obtain easements for existing Company facilities.

110.07 RELOCATION NOT REQUIRED. The Company shall not be required to relocate, at its cost and expense, Company facilities in the public right of way that have been relocated at Company expense at the direction of the City at any time during the previous seven years.

110.08 RELOCATION REIMBURSEMENT. Pursuant to relocation of Company facilities as may be required by this franchise, if the City orders or requests the Company to relocate its existing facilities or equipment in order to directly or indirectly facilitate the project of a commercial or private developer or other non-public entity, City shall reimburse or the City shall require the developer or non-public entity to reimburse the Company for the cost of such relocation as a precondition to relocation. The Company shall not be required to relocate in order to facilitate such private project at its expense.

The Company shall indemnify and save harmless the City from any and all claims, suits, losses, damages, costs or expenses, on account of injury or damage to any person or property, to the extent caused or occasioned by the Company's negligence in construction, reconstruction, excavation, operation or maintenance of the natural gas facilities authorized by this franchise; provided, however, that the Company shall not be obligated to defend, indemnify and save harmless the City for any costs or damages arising from the negligence of the City, its officers, employees or agents.

The Company and City recognize the Information may in whole or part be considered a confidential record under State or Federal law or both. Therefore, the City shall not release any Information without prior consent or the Company and shall return the Information to Company upon request. City recognizes that Company claims the Information may constitute a trade secret or is otherwise protected from public disclosure by State or Federal law on other grounds and agrees to retain the Information in its non-public files. Furthermore, the City agrees that no documents, maps or information provided to the City by the Company shall be made available to the public or other entities if such documents or information are exempt from disclosure under the provisions of the Freedom of Information Act, the Federal Energy Regulatory Commission Critical Energy Infrastructure requirements pursuant to 18 CFR 388.112 and 388.113, and Chapter 22 of the *Code of Iowa*, as such statutes and regulations may be amended from time to time.

The City does therefore exempt the customer classes or customer groups in Section 110.14 from paying franchise fees. The City reserves the right to cancel any or all the franchise fee exemptions and also reserves the right to grant exemptions to additional customers or customer classes in compliance with Iowa law and Section 110.17 of this chapter.

- Customer classes or customer groups exempted by the City at time of imposing a franchise fee percentage greater than zero percent:

- Public Authority Customers

110.16 COLLECTION OF FEES. The City recognizes the administrative burden collecting franchise fees imposes upon the Company and the Company requires lead time to commence collecting said franchise fees. The Company will commence collecting franchise fees on or before the first Company billing cycle of the first calendar month following 90 days of receipt of information required of the City to implement the franchise fee, including the City's documentation of consumers subject to or exempted from City-imposed franchise fee. The City shall provide the information and data required in a form and format acceptable to the Company. The Company will, if requested by the City, provide the City with a list of premises considered by the Company to be within the corporate limits of the City.

110.17 IDENTIFYING CUSTOMERS. The City shall be solely responsible for identifying customers subject to or exempt from paying the City imposed franchise fee. The City shall be solely responsible for notifying Company of its corporate limits, including, over time, annexations or other alterations thereto, and customers that it wishes to subject to, or to the extent permitted by law, exempt from paying the franchise fee. The City shall provide to the Company, by certified mail, copies of annexation ordinances in a timely manner to ensure appropriate franchise fee collection from customers within the corporate limits of the City. The Company shall have no obligation to collect franchise fees from customers in annexed areas until and unless such ordinances have been provided to the Company by certified mail. The Company shall commence collecting franchise fees in the annexed areas no sooner than 60 days after receiving annexation ordinances from the City.

110.18 MODIFYING FEES. The City agrees to modify the level of franchise fees imposed only once in any 24-month period. Any such ordinance exempting certain types or classes of customers, increasing, decreasing, modifying or eliminating the franchise fee shall become effective, and billings reflecting the change shall commence on an agreed upon date which is not less than 60 days following written notice to the Company by certified mail. The Company shall not be required to implement such new ordinance unless and until it determines that it has received appropriate official documentation of final action by the City Council.

110.19 INDEMNIFICATION. The City shall indemnify the Company from claims of any nature arising out of or related to the imposition and collection of the franchise fee. In addition, the Company shall not be liable for collecting franchise fees from any customer originally or subsequently identified, or incorrectly identified, by the City as being subject to the franchise fee or being subject to a different level of franchise fees or being exempt from the imposition of franchise fees.

110.20 FEE REMITTANCE. The Company shall remit franchise fee revenues to the City no more frequently than on or before the last business day of the month following each quarter as follows:

- January, February and March
- April, May and June
- July, August and September, and
- October, November and December

MidAmerican shall provide City with notice at least 30 days in advance of any changes made in this collection schedule, including any alterations in the calendar quarters or any other changes in the remittance periods.

110.21 FEE ADMINISTRATION. The City recognizes that the costs of franchise fee administration are not charged directly to the City and agrees it shall, if required by the Company, reimburse the Company for any initial or ongoing costs incurred by the Company in collecting franchise fees that Company in its sole opinion deems to be in excess of typical costs of franchise fee administration.

110.22 FEE REFUNDS. MidAmerican Energy Company shall not, under any circumstances be required to return or refund any franchise fees that have been collected from City customers and remitted to the City. In the event the Company is required to provide data or information in defense of the City's imposition of franchise fees or the Company is required to assist the City in identifying customers or calculating any franchise fee refunds for groups of or individual customers the City shall reimburse the Company for the expenses incurred by the Company to provide such data or information.

110.23 OBLIGATION TO COLLECT. The obligation to collect and remit the fee imposed by this chapter is modified or repealed if:

1. Any other person is authorized to sell natural gas at retail to City consumers and the City imposes a franchise fee or its lawful equivalent at zero or a lesser rate than provided in this chapter, in which case the obligation of Company to collect and remit franchise fee shall be modified to zero or the lesser rate;
2. The City adds additional territory by annexation or consolidation and is unable or unwilling to impose the franchise fee upon all persons selling natural gas at retail to consumers within the additional territory, in which case the franchise fee imposed on the revenue from sales by Company in the additional territory shall be zero or equal to that of the lowest fee being paid by any other retail seller of natural gas within the City; or
3. Legislation is enacted by the Iowa General Assembly or the Supreme Court of Iowa issues a final ruling regarding franchise fees or the Iowa Utilities Board issues a final non-appealable order (collectively, "final franchise fee action") that modifies, but does not repeal, the ability of the City to impose a franchise fee or the ability of Company to collect from City customers and remit franchise fees to City. Within 60 days of final franchise fee action, the City shall notify Company and the parties shall meet to determine whether this ordinance can be revised, and, if so, how to revise the franchise fee on a continuing basis to meet revised legal requirements. After final franchise fee action and until passage by the City of revisions to the franchise fee ordinance, Company may temporarily discontinue collection and remittance of the franchise fee if in its sole opinion it believes it is required to do so in order to comply with revised legal requirements.

110.24 OBLIGATION RELIEVED. The other provisions of this chapter to the contrary notwithstanding, the Company shall be completely relieved of its obligation to collect and remit to the City the franchise fee as, effective as the date specified below with no liability therefor under each of any of the following circumstances as determined to exist in the sole discretion of Company:

1. Any of the imposition, collection or remittance of a franchise fee is ruled to be unlawful by the Supreme Court of Iowa, effective as of the date of such ruling or as may be specified by that Court.
2. The Iowa General Assembly enacts legislation making imposition, collection or remittance of a franchise fee unlawful, effective as of the date lawfully specified by the General Assembly.
3. The Iowa Utilities Board, or its successor agency, denies the Company the right to impose, collect or remit a franchise fee provided such denial is affirmed by the Supreme Court of Iowa, effective as of the date of the final agency order from which the appeal is taken.

110.25 MANAGEMENT FEES. Upon implementation of a franchise fee the City shall not, pursuant to Chapter 480A.6 of the *Code of Iowa*, impose or charge Company right-of-way management fees for permits for Company construction, maintenance, repairs, excavation, pavement cutting or inspections of Company work sites and projects or related matters.

110.26 TERMINATION. Either City or Company (“party”) may terminate this franchise if the other party shall be materially in breach of its provisions. Upon the occurrence of a material breach, the non-breaching party shall provide the breaching party with notification by certified mail specifying the alleged breach. The breaching party shall have 60 days to cure the breach, unless it notifies the non-breaching party, and the parties agree upon a shorter or longer period for cure. If the breach is not cured within the cure period, the non-breaching party may terminate this franchise. A party shall not be considered to be in breach of this franchise if it has operated in compliance with State or federal law. A party shall not be considered to have breached this franchise if the alleged breach is the result of the actions of a third party or the other party.

Prior to the City abandoning or vacating any street, avenue, alley or public ground where the Company has electric facilities in the vicinity, the City shall provide Company with not less than 60 days' advance notice of the City's proposed action and, upon request grant the Company a utility easement covering existing and future facilities and activities. The Company shall not be required to relocate in order to facilitate such private project at its expense.

111.09 INDEMNIFICATION. The Company shall indemnify and save harmless the City from any and all claims, suits, losses, damages, costs or expenses, on account of injury or damage to any person or property, to the extent caused or occasioned by the Company's negligence in construction, reconstruction, excavation, operation or maintenance of the electric facilities authorized by this franchise; provided, however, the Company shall not be obligated to defend, indemnify and save harmless the City for any costs or damages arising from the negligence of the City, its officers, employees, or agents.

111.10 INFORMATION. Upon reasonable request the Company shall provide the City, on a project specific basis, information indicating the horizontal location, relative to boundaries of the right of way, of all equipment which it owns or over which it has control that is located in City right-of-way. Therefore, the City shall not release any information with respect to the location or type of equipment which the Company owns or controls in the right of way which may constitute a trade secret or which may otherwise be protected from public disclosure by State or federal law. Furthermore, the City agrees that no documents, maps or information provided to the City by the Company shall be made available to the public or other entities if such documents or information are exempt from disclosure under the provisions of the Freedom of Information Act, the Federal Energy Regulatory Commission Critical Energy Infrastructure requirements pursuant to 18 CFR 388.112 and 388.113, and Chapter 22 of the *Code of Iowa*, as such statutes and regulations may be amended from time to time.

111.13 FRANCHISE FEE. There is hereby imposed upon and shall be collected from the retail electric customers of MidAmerican Energy Company receiving service pursuant to the Tariff located within the corporate limits of the City and remitted by the Company to the City, a franchise fee from each revenue class as set forth below of the gross receipts, minus uncollectable amounts, derived by the Company from the delivery and sale of electric energy to customers within the corporate limits of the City:

| • Residential Customers | 5 percent |
| • Commercial Customers | 3 percent |
| • Industrial Customers | 3 percent |
| • Public Authority Customers | 0 percent |

111.14 FEE EXEMPTIONS. The City may, as allowed by Iowa law, exempt certain types or classes of sales from imposition of the franchise fee, or modify, decrease or eliminate the franchise fee. The City does therefore exempt the customer classes or customer groups in Section 111.13. The City reserves the right to cancel any or all the franchise fee exemptions

and also reserves the right to grant exemptions to additional customers or customer classes in compliance with Iowa law and Section 111.15 of this chapter.

The Company shall not be required to implement such new ordinance unless and until it determines that it has received appropriate official documentation of final action by the City Council.

111.16 COLLECTION OF FEES. The City recognizes the administrative burden collecting franchise fees imposes upon the Company and the Company requires lead time to commence collecting said franchise fees. The Company will commence collecting franchise fees on or before the first Company billing cycle of the first calendar month following 90 days of receipt of information required of the City to implement the franchise fee, including the City's documentation of consumers subject to or exempted from City-imposed franchise fee. The City shall provide the information and data required in a form and format acceptable to the Company. The Company will, if requested by the City, provide the City with a list of premises considered by the Company to be within the corporate limits of the City.

111.17 IDENTIFYING CUSTOMERS. The City shall be solely responsible for identifying customers subject to or exempt from paying the City imposed franchise fee. The City shall be solely responsible for notifying Company of its corporate limits, including, over time, annexations or other alterations thereto, and customers that it wishes to subject to, or to the extent permitted by law, exempt from paying the franchise fee. The City shall provide to the Company, by certified mail, copies of annexation ordinances in a timely manner to ensure appropriate franchise fee collection from customers within the corporate limits of the City. The Company shall have no obligation to collect franchise fees from customers in annexed areas until and unless such ordinances have been provided to the Company by certified mail. The Company shall commence collecting franchise fees in the annexed areas no sooner than 60 days after receiving annexation ordinances from the City.

111.18 INDEMNIFICATION. The City shall indemnify the Company from claims of any nature arising out of or related to the imposition and collection of the franchise fee. 111.20 FEE ADMINISTRATION. The City recognizes that the costs of franchise fee administration are not charged directly to the City and agrees it shall, if required by the Company, reimburse the Company for any initial or ongoing costs incurred by the Company in collecting franchise fees that Company in its sole opinion deems to be in excess of typical costs of franchise fee administration.

111.21 FEE REFUNDS. MidAmerican Energy Company shall not, under any circumstances be required to return or refund any franchise fees that have been collected from City customers and remitted to the City. In the event the Company is required to provide data or information in defense of the City's imposition of franchise fees or the Company is required to assist the City in identifying customers or calculating any franchise fee refunds for groups of or individual customers the City shall reimburse the Company for the expenses incurred by the Company to provide such data or information.

111.22 OBLIGATION TO COLLECT. The obligation to collect and remit the fee imposed by this chapter is modified or repealed if:

1. Any other person is authorized to sell electricity at retail to City consumers and the City imposes a franchise fee or its lawful equivalent at zero or a lesser rate than provided in this chapter, in which case the obligation of Company to collect and remit franchise fee shall be modified to zero or the lesser rate;
2. The City adds additional territory by annexation or consolidation and is unable or unwilling to impose the franchise fee upon all persons selling electricity at retail to consumers within the additional territory, in which case the franchise fee imposed on the revenue from sales by Company in the additional territory shall be zero or equal to that of the lowest fee being paid by any other retail seller of electricity within the City; or
3. Legislation is enacted by the Iowa General Assembly or the Supreme Court of Iowa issues a final ruling regarding franchise fees or the Iowa Utilities Board issues a final non-appealable order (collectively, "final franchise fee action") that modifies, but does not repeal, the ability of the City to impose a franchise fee or the ability of Company to collect from City customers and remit franchise fees to City. Within 60 days of final franchise fee action, the City shall notify Company and the parties shall meet to determine whether this ordinance can be revised, and, if so, how to revise the franchise fee on a continuing basis to meet revised legal requirements. After final franchise fee action and until passage by the City of revisions to the franchise fee ordinance, Company may temporarily discontinue collection and remittance of the franchise fee if in its sole opinion it believes it is required to do so in order to comply with revised legal requirements.

111.23 OBLIGATION RELIEVED. The other provisions of this chapter to the contrary notwithstanding, the Company shall be completely relieved of its obligation to collect and remit to the City the franchise fee as, effective as the date specified below with no liability therefor under each of any of the following circumstances as determined to exist in the sole discretion of Company:

1. Any of the imposition, collection or remittance of a franchise fee is ruled to be unlawful by the Supreme Court of Iowa, effective as of the date of such ruling or as may be specified by that Court.
2. The Iowa General Assembly enacts legislation making imposition, collection or remittance of a franchise fee unlawful, effective as of the date lawfully specified by the General Assembly.
3. The Iowa Utilities Board, or its successor agency, denies the Company the right to impose, collect or remit a franchise fee provided such denial is affirmed by the Supreme Court of Iowa, effective as of the date of the final agency order from which the appeal is taken.

111.24 MANAGEMENT FEES. The City shall not, pursuant to Chapter 480A.6 of the *Code of Iowa*, impose or charge right of way management fees upon the Company or fees for permits for Company construction, maintenance, repairs, excavation, pavement cutting or inspections of Company work sites and projects or related matters.

111.25 TERMINATION. Either City or Company ("party") may terminate this franchise if the other party shall be materially in breach of its provisions. Upon the occurrence of a material breach, the non-breaching party shall provide the breaching party with notification by certified mail specifying the alleged breach. The breaching party shall have 60 days to cure the breach, unless it notifies the non-breaching party, and the parties agree upon a shorter or longer period for cure. If the breach is not cured within the cure period, the non-breaching party may terminate this franchise. A party shall not be considered to be in breach of this franchise if it has operated in compliance with State or Federal law. A party shall not be considered to have breached this franchise if the alleged breach is the result of the actions of a third party or the other party.

There is hereby granted by the City to Grantee the nonexclusive franchise, right and privilege to construct, erect, operate and maintain in, upon, along, across, above, over and under the streets, alleys, public ways and public places now laid out or dedicated and all extensions thereof, and additions thereto, in the City, poles, wires, cables, underground conduits, manholes and other television and telephone conductors and fixtures necessary for the maintenance and operation in the City of a cable television and telephone system for the purpose of distributing and receiving television,

telephone and radio signals and other electronic impulses in order to furnish cable service to the public.

112.03 TERRITORIAL AREA INVOLVED. This franchise relates to the present territorial limits of the City and to any area henceforth added thereto during the term of this franchise.

112.04 TECHNICAL STANDARDS. Grantee shall at all times comply with all rules and regulations of the Federal Communications Commission and any other duly authorized agency of the United States of America, all laws duly enacted now or hereafter by the United States Congress and all regulations of the Iowa Utilities Board. Without limiting the generality of the foregoing, the cable television system shall meet all applicable FCC technical standards as of the effective date of this franchise and shall conform to such standards and all amendments thereto during the term of this franchise. This chapter shall be deemed conformed, without further action of the Council or Grantee, to any and all rules and regulations relating to the required terms of cable television franchises which are now in effect or which may hereafter be adopted by the FCC or any other duly authorized agency of the United States of America, as of the effective date thereof.

If the City elects to exercise this right of first refusal, it shall notify Grantee in writing within the 90-day period. For this purpose only, notice shall be considered given upon the deposit thereof in the U.S. mail with proper postage attached. Failure to give notice of the election to exercise the right of first refusal shall be treated as an election not to exercise said right. Grantee must separately submit to the City for consideration each and every agreement on which transfer is proposed to be made. A decision by the City not to exercise the right in any given case shall not be deemed to be a waiver of authority to exercise the right as to any subsequent offer. Any transfer made on terms other than have been offered to the City shall be void.

112.07 UNAUTHORIZED CABLE SYSTEM TAPPING.

1. Unauthorized Service Prohibited. It shall be unlawful for any person or persons to obtain any cable service from Grantee by installing, rearranging or tampering with any facilities or equipment of Grantee, unless the same is done with the knowledge of and with the permission of the Grantee.

Grantee shall maintain in full force and effect liability insurance in one or more solvent insurance companies authorized to do business in Iowa insuring the City and Grantee with regard to all damages and claims in reasonable amounts to be determined from time to time by the Council. The initial amount of liability insurance required shall be \$1,000,000 per claim. Grantee shall annually provide to the City a Certificate of Insurance verifying the coverages required by this section, which Certificate shall also provide that the policy providing the required coverages shall not be canceled without 30 days advance notice to the City. Upon request of the Council, Grantee shall provide a complete copy of the policies then in effect to the Council.

Grantee's plant and equipment, including the antenna site, headend, distribution system, structures, poles, wires, underground cable, and appurtenances shall be installed in accordance with good engineering practices, and shall be located, erected, constructed, reconstructed, replaced, removed, repaired, maintained and operated so as not to endanger or interfere with the lives or property of persons or other franchise holders or to interfere with the improvements the City may deem proper to make, or to unnecessarily hinder or obstruct pedestrian or vehicular traffic to public ways, places, and structures. Erection, installation, construction, replacement, removal, repair, maintenance and operation of the system shall be in accordance with the provisions of the National Electrical Code and National Electric Safety code (as the same may be applicable) and such applicable laws of the United States, State of Iowa and applicable ordinances of the City which may now be in effect or enacted in the future. All installations shall be of a permanent nature, durable and maintained in a safe, suitable and substantial condition, in good order and repair; and shall be aesthetically pleasing wherever possible. 112.14 CONFORMANCE WITH CODES. Grantee shall be required to conform to all present and future applicable City building codes including but not limited to plumbing and electrical codes and any ordinances providing for the manner and method of cutting streets, excavations in the right of way, backfills, etc. Grantee shall restore all property of the City, and all other property located in the City, to its original condition after the installation of either overhead or underground cable or any other equipment of or by Grantee.

112.15 LOCATION OF LINES. All transmission and distribution structures, lines and equipment erected by Grantee within the City shall be so located as to cause minimum interference with the proper use of streets, alleys, and other public ways and places, and to cause minimum interference with the rights or reasonable convenience of the City and of property owners who adjoin any of the said streets, alleys, or other public ways and places, and with other franchise holders and to be aesthetically pleasing wherever possible.

112.16 SURFACE REPAIR. In case of any disturbance of pavement, sidewalk, driveway, grass or other surfacing, Grantee shall, at its own cost and expense, and in a manner approved by the City, replace and restore all paving, sidewalk, driveway or other surfacing disturbed to at least as good a condition as before said work was commenced.

112.17 OTHER FRANCHISE HOLDERS. Grantee shall cooperate with the other City franchise holders.

112.18 STREET CHANGES. If at any time during the period of this chapter, the City shall elect to alter in any way, including change of grade of, any street, alley, trail or public way, or any other property owned by the City or over which the City has an easement, Grantee upon reasonable notice by the City, shall remove, relay and relocate its poles, wires, cable, underground conduits, manholes and other fixtures at Grantee's own expense.

The reasonable expense of such temporary removal or raising or lowering of wires shall be paid by the person requesting the same; and the Grantee shall have the authority to require such payment in advance. The Grantee shall be given not less than 48 hours' advance notice to arrange for such temporary wire changes.

112.20 TRIMMING TREES. Grantee shall have the authority to trim trees hanging over the streets, alleys, sidewalks and public ways and places of the City so as to prevent the branches of such trees from coming in contact with the wires and cables of Grantee.

112.21 UNDERGROUND CABLE. In all sections of the City where the cables, wires, or other like facilities of other public utilities are placed underground, Grantee shall place its wires, cables or other like facilities underground to the maximum extent that technology existing at the time reasonably permits Grantee to do so.

112.22 REPAIRS. Grantee shall furnish and maintain a toll-free telephone number available to subscribers 24 hours a day (with recorder or similar device for telephone calls outside normal business hours) for complaints and requests for repairs. Grantee shall maintain a repair and “trouble shooting” force capable of locating, correcting and repairing all problems, malfunctions and inadequate reception of the cable television system and cable television service in accordance with applicable regulations of the FCC and Iowa Utilities Board. 112.26 FRANCHISE FEE. For the first five years of the franchise granted hereunder, Grantee shall pay a franchise fee to the City equal to three percent of gross subscriber revenues from the sale of basic- and premium-tier programming services within the corporate limits of the City. For the second five years of the franchise granted hereunder the fee shall be four percent of such gross subscriber revenues. For the third five years of the franchise granted hereunder the fee shall be five percent of such gross subscriber revenues. Such fee shall be payable on a quarterly basis, with the payment for any calendar quarter due within 30 days after the end of that quarter. To enable the City to verify the accuracy of Grantee’s computation of such fee, Grantee shall provide to the City an annual report of the number of subscribers served and gross subscriber revenue, as defined herein, and such other information as the City may reasonably request concerning Grantee’s sale of such programming services.

112.27 POWERS RESERVED TO CITY. Neither the granting of the franchise nor the granting of any renewal or extension thereof shall constitute a waiver or bar to the exercise of any governmental right or power of the City.

112.28 MISCELLANEOUS.

1. Grantee's legal, character, financial, technical and other qualifications and the adequacy and feasibility of its construction arrangements have been approved by the Council after consideration in a full public proceeding affording due process to all interested persons.

3. Complaints regarding the quality of service, equipment malfunctions and similar matters shall first be directed to Grantee's business office. Should Grantee fail to satisfy a complaint, it may then be directed to the Clerk for investigation. Complainants and Grantee shall be afforded a reasonable opportunity to present written statements of their position. The Clerk shall attempt to resolve the complaint; and if this cannot be achieved, the Clerk shall submit a recommendation to the Council, which shall either: (i) dismiss the complaint; or (ii) specify corrective steps to be taken by Grantee. All buildings or structures that are structurally unsafe or not provided with adequate egress, or that constitute a fire hazard, or are otherwise dangerous to human life, or that in relation to existing use constitute a hazard to safety or health, or public welfare, by reason of inadequate maintenance, dilapidation, obsolescence, or abandonment, are, for the purpose of this chapter, unsafe buildings. All such unsafe buildings are hereby declared to be public nuisances and shall be abated by repair, rehabilitation, demolition, or removal in accordance with the procedure specified in this chapter.

(Code of Iowa, Sec. 657A.1 & 364.12[3a])

5. Abandoned. Whenever any portion of a building or structure remains on a site after the demolition or destruction of the building or structure or whenever any building or structure is abandoned for a period in excess of six months so as to constitute such building or portion thereof an attractive nuisance or hazard to the public.

The enforcement officer shall examine or cause to be examined every building or structure or portion thereof reported as dangerous or damaged and, if such is found to be an unsafe building as defined in this chapter, the enforcement officer shall give to the owner of such building or structure written notice stating the defects thereof. This notice may require the owner or person in charge of the building or premises, within 48 hours

or such reasonable time as the circumstances require, to commence either the required repairs or improvements or demolition and removal of the building or structure or portions thereof, and all such work shall be completed within 90 days from date of notice, unless otherwise stipulated by the enforcement officer. If necessary, such notice shall also require the building, structure, or portion thereof to be vacated forthwith and not reoccupied until the required repairs and improvements are completed, inspected, and approved by the enforcement officer.

(Code of Iowa, Sec. 364.12[3h])

1. Notice Served. Such notice shall be served by sending by certified mail to the owner of record, according to Section 364.12[3h] of the *Code of Iowa*, if the owner is found within the City limits. 145.06 POSTING OF SIGNS. The enforcement officer shall cause to be posted at each entrance to such building a notice to read: "DO NOT ENTER. UNSAFE TO OCCUPY. CITY OF BOYDEN, IOWA." Such notice shall remain posted until the required demolition, removal or repairs are completed. Such notice shall not be removed without written permission of the enforcement officer and no person shall enter the building except for the purpose of making the required repairs or of demolishing the building.

145.07 RIGHT TO DEMOLISH; MUNICIPAL INFRACTION. In case the owner fails, neglects, or refuses to comply with the notice to repair, rehabilitate, or to demolish and remove the building or structure or portion thereof, the Council may order the owner of the building prosecuted as a violator of the provisions of this chapter and may order the enforcement officer to proceed with the work specified in such notice. A statement of the cost of such work shall be transmitted to the Council. As an alternative to this action, the City may utilize the municipal infraction process to abate the nuisance.

(Code of Iowa, Sec. 364.12[3h])

No person shall have or deposit any grain stack, pile of rubbish, explosives, hazardous chemicals or other flammable substance within the Fire Zone, nor shall any person have or deposit any cord wood or fire wood, within the Fire Zone without written permission from the Mayor, specifying the maximum amount of such cord wood or fire wood, that may be kept, stored, or deposited on any lot or part of a lot within the Fire Zone, unless the same be within one of the buildings allowed by this chapter. No person shall build or allow any fires, whether trash fires or otherwise, within the Fire Zone as described in this chapter.

150.01 Definitions

150.02 Owner Requirements

150.03 Building Numbering Plan

150.01 DEFINITIONS. For use in this chapter, the following terms are defined:

1. “Owner” means the owner of the principal building.
2. “Principal building” means the main building on any lot or subdivision thereof.

150.02 OWNER REQUIREMENTS. Every owner shall comply with the following numbering requirements:

1. Obtain Building Number. The owner shall obtain the assigned number to the principal building from the Clerk.

(Code of Iowa, Sec. 364.12[3d])

2. Display Building Number. The owner shall place or cause to be installed and maintained on the principal building the assigned number in a conspicuous place to the street in figures not less than two and one-half inches in height and of a contrasting color with their background.

(Code of Iowa, Sec. 364.12[3d])

3. Failure to Comply. If an owner refuses to number a building as herein provided, or fails to do so for a period of 30 days after being notified in writing by the City to do so, the City may proceed to place the assigned number on the principal building and assess the costs against the property for collection in the same manner as a property tax.

(Code of Iowa, Sec. 364.12[3h])

151.03 Duty to Trim Trees

151.04 Trimming Trees to Be Supervised

151.05 Disease Control

151.06 Inspection and Removal

151.01 DEFINITION. For use in this chapter, “parking” means that part of the street, avenue, or highway in the City not covered by sidewalk and lying between the lot line and the curb line or, on unpaved streets, that part of the street, avenue, or highway lying between the lot line and that portion of the street usually traveled by vehicular traffic.

151.02 PLANTING RESTRICTIONS. No tree shall be planted in any parking or street except in accordance with the following:

1. Alignment. All trees planted in any street shall be planted in the parking midway between the outer line of the sidewalk and the curb. In the event a curb line is not established, trees shall be planted on a line 10 feet from the property line.
2. Spacing. Trees shall not be planted on any parking that is less than nine feet in width, or contains less than 81 square feet of exposed soil surface per tree. Trees shall not be planted closer than 20 feet from street intersections (property lines extended) and 10 feet from driveways. If it is at all possible, trees should be planted inside the property lines and not between the sidewalk and the curb.
3. Prohibited Trees. No person shall plant in any street any fruit-bearing tree or any tree of the kinds commonly known as cottonwood, poplar, box elder, Chinese elm, evergreen, willow, or black walnut.

151.03 DUTY TO TRIM TREES. The owner or agent of the abutting property shall keep the trees on, or overhanging the street, trimmed so that all branches will be at least 15 feet above the surface of the street and eight feet above the sidewalks. If the abutting property owner fails to trim the trees, the City may serve notice on the abutting property owner requiring that such action be taken within five days. If such action is not taken within that time, the City may perform the required action and assess the costs against the abutting property for collection in the same manner as a property tax.

(Code of Iowa, Sec. 364.12[2c, d & e])

151.04 TRIMMING TREES TO BE SUPERVISED. Except as allowed in Section 151.03, it is unlawful for any person to trim or cut any tree in a street or public place unless the work is done under the supervision of the City.

151.05 DISEASE CONTROL. Any dead, diseased, or damaged tree or shrub that may harbor serious insect or disease pests or disease injurious to other trees is hereby declared to be a nuisance.

151.06 INSPECTION AND REMOVAL. The Council shall inspect or cause to be inspected any trees or shrubs in the City reported or suspected to be dead, diseased or damaged, and such trees and shrubs shall be subject to the following:

1. City Property. If it is determined that any such condition exists on any public property, including the strip between the curb and the lot line of private property, the Council may cause such condition to be corrected by treatment or removal. The Council may also order the removal of any trees on the streets of the City which interfere with the making of improvements or with travel thereon.

2. Private Property. If it is determined with reasonable certainty that any such condition exists on private property and that danger to other trees or to adjoining property or passing motorists or pedestrians is imminent, the Council shall notify by certified mail the owner, occupant or person in charge of such property to correct such condition by treatment or removal within 14 days of said notification. If such owner, occupant, or person in charge of said property fails to comply within 14 days of receipt of notice, the Council may cause the condition to be corrected and the cost assessed against the property.

155.01 PURPOSE. The purpose of this chapter is to provide and establish reasonable rules and regulations for the erecting and altering of buildings in the City, as well as the use and occupancy of such buildings.

(Code of Iowa, Sec. 364.1)

155.02 BUILDING OFFICIAL. The Mayor is the Building Official and is responsible for the administration and enforcement of this chapter.

155.03 PERMIT REQUIRED. No building or other structure shall be erected or altered within the City without first receiving a permit. A permit is required for work such as new homes, additions, patios, decks, porches, garages, accessory buildings, or for work that would change the outside dimensions of an existing building. A permit is not required for interior remodeling, roofing, window replacement, or siding a building. The construction of a fence does not require a building permit, but the construction of such fence shall comply with standards established in this chapter.

155.04 APPLICATION. Application shall be made in writing, filed with the Building Official and contain the following information:

1. Name. The name and address of the applicant.
2. Location. The street address and full legal description of the property.
3. Proposed Work. The nature of work proposed to be done.
4. Use. The use for which the structure is or will be used.
5. Plans. Application for permits shall be accompanied by such drawings of the proposed work, including such floor plans, sections, elevations and structural details, as the Building Official may require. There shall also be filed a diagram or sketch in a form and size acceptable to the Building Official with all dimensions figured, showing accurately the size and location of the lot to be built upon, and the location and size of the building or structure to be erected or altered.

155.05 FEE. A permit fee in the amount of \$5.00 shall be paid to the City prior to issuance of the permit. In the event that work has commenced without first obtaining a permit, the permit

fee shall be doubled. The payment of such double fee shall not relieve any persons from fully complying with the requirements of this chapter in the execution of the work.

155.06 AMENDMENTS. Nothing shall prohibit the filing of amendments to an application or to a plan or other record accompanying same, at any time before the completion of the work for which the permit was sought. Such amendments, after approval, shall be filed with and be deemed a part of the original application.

155.07 COMPLETION OF EXISTING BUILDINGS. Nothing contained in this chapter shall require any change in the plans, construction, or size of a building for which construction was started before the effective date of this chapter; provided, however, construction under such circumstances shall be completed within one year after the effective date of this chapter. Extensions to this time frame may be granted by an affirmative vote of three-fourths of all of the members of the Council.

155.08 APPLICATION APPROVED. It is the duty of the Building Official to examine applications for permits within a reasonable time after filing. If, after examination, the Building Official finds no objection to the same and it appears that the proposed work will be in compliance with the laws and ordinances applicable thereto, the Building Official shall forward findings to the Council for its approval or disapproval.

155.09 ACTION BY COUNCIL. After receiving the findings of the Building Official, the Council shall, within a reasonable time, either approve or disapprove the application. If disapproved, the Council shall state its reasons for disapproval and notify the applicant of same. If approved, the Council shall instruct the Building Official to issue the building permit to the applicant. Said permit shall be issued in duplicate, one copy for the applicant and one copy to be retained in the City records.

155.10 RESTRICTIONS. No permit for the erection or alteration of a building or similar structure shall be granted unless it definitely appears that such erection or alteration shall not cause or be the source of the following:

(Code of Iowa, Sec. 414.24)

1. Noise. Any undue noise.
2. Electrical Interference. Any undue radio or television interference.
3. Odors. Any offensive odors.
4. Refuse. Any offensive or unsightly refuse.
5. Smoke. Any offensive or undue smoke.
6. Fire Hazard. Any fire hazard.
7. Appearance. Any unsightliness due to the appearance of any building or structure on the premises.
8. Congestion. Any undue gathering, congregating, parking of cars or undue congestion of people or traffic.
9. Other. Any effect that will be obnoxious, offensive, dangerous, or injurious to the health, welfare, and safety of citizens.

155.11 CONDITION OF THE PERMIT. All work performed under any permit shall conform to the approved application and plans, and approved amendments thereof. The location

of all new construction as shown on the approved plan, or an approved amendment thereof, shall be strictly adhered to. It is unlawful to reduce or diminish the area of a lot or plot of which a plan has been filed and has been used as the basis for a permit, unless a revised plan showing the proposed change in conditions shall have been filed and approved, provided that this shall not apply when the lot is reduced by reason of a street opening or widening or other public improvement.

155.12 POSTING OF PERMIT. A copy of the permit shall be kept on the premises open to public inspection during the prosecution of the work and until the completion of same. The building official may require a certified copy of the approved plans to be kept on the premises at all times from the commencement of the work to the completion thereof. The building official shall be given at least 24 hours' notice of the starting of work under a permit.

155.13 REVOCATION. The Building Official may revoke a permit or approval issued under the provisions of this chapter in case there has been any false statement or misrepresentation as to a material fact in the application or plans on which the permit or approval was based.

155.14 PERMIT VOID. Any permit issued under this chapter shall be void and of no effect if any one or more of the following time limitations is not met:

1. Construction covered by the permit is not initiated and underway within six months from the date of issuance.
2. The ground story framework, including structural parts of the second floor, are not completed within one year from the date of issuance.
3. The entirety of the construction authorized by the permit is not completed within two years from the date of issuance.

Completion of any project for which a permit has been rendered void under the standards imposed above shall be unlawful unless the applicant has reapplied for and has received a new permit under this chapter. The Council may consider noncompliance with the time limitations imposed above in determining whether to reissue a permit for the construction previously permitted or to issue a permit for any other project for which the applicant may seek a permit.

155.15 RESTRICTED RESIDENCE DISTRICT. The following area is hereby defined and established as a restricted residence district:

All that area lying within the corporate limits of the City

155.16 SIDE YARD REQUIREMENTS. Within the restricted residence district no building shall be erected closer than six feet to either side lot line.

(Code of Iowa, Sec. 414.24)

155.17 DETACHED GARAGES AND OTHER ACCESSORY BUILDINGS.

The City Council may waive any of the above restrictions if it finds that a proposed building would be compatible with the use and character of other buildings in the immediate area.

155.18 FENCES. Fences shall be constructed of material commonly used for landscape fencing such as masonry block, lumber, chain-link, wrought iron or natural plantings, but shall not include corrugated sheet metal or salvage material. The owner of a fence shall provide and maintain a two-foot setback from adjoining property for the purpose of fence maintenance access.

155.19 RESIDENTIAL DWELLING STANDARDS. All structures placed, erected, assembled or constructed in the City of Boyden shall meet and comply with the following requirements:

- 1. Exterior Wall and Roofing Material.
 - A. Exterior wall covering shall be wood or masonry finish, vertical or horizontal grooved siding, lap siding, wood shingles or another approved material of similar appearance.

special use permit therefor. No such special use permit shall be issued without the affirmative vote of three-fourths of the full Council.

(Code of Iowa, Sec. 414.24)

155.22 EXCEPTIONS. The provisions of the preceding section shall have no application to any business, store, shop or factory existing and in operation in a restricted residence district on January 1, 1980, except in the matter of reconstruction, alteration or change in use of the structure.

155.23 CERTIFYING ORDINANCES. Within 15 days of the effective date of the adoption of any amendments to the provisions of this chapter, the Clerk shall certify such amendment to the County Recorder.

(Code of Iowa, Sec. 380.11)

155.24 ABATEMENT OF VIOLATION. Any building or structure erected, altered, used or occupied in violation of this chapter shall be determined a nuisance, and the same may be abated by the City or by any property owner within said district in the manner provided for the abatement of nuisances.

156.01 SUMP PUMP CONNECTIONS. The City may, at its sole discretion, require that a property owner connect a sump pump drain to the storm sewer or to a collector line when provided by the City or a developer when it is adjacent to the property owner's property. Under no circumstances shall sump pumps be allowed to discharge either directly or indirectly into the sanitary sewer.

156.02 PENALTIES FOR VIOLATIONS. A violation of any provision of this chapter is declared a public offense and the violator may be charged with a civil municipal infraction. Civil penalties for municipal infractions shall be imposed according to Chapter 3 of this Code of Ordinances.

19. FLOODWAY. The channel of a river or stream and those portions of the floodplains adjoining the channel, which are reasonably required to carry and discharge flood waters or flood flows so that confinement of flood flows to the floodway area will not cumulatively increase the water surface elevation of the base flood by more than one (1) foot.
20. FLOODWAY FRINGE. Those portions of the Special Flood Hazard Area outside the floodway.
21. HIGHEST ADJACENT GRADE. The highest natural elevation of the ground surface prior to construction next to the proposed walls of a structure.

31. START OF CONSTRUCTION. Includes substantial improvement, and means the date the development permit was issued, provided the actual start of construction, repair, reconstruction, rehabilitation, addition, placement, or other improvement, was within 180 days of the permit date. The actual start means either the first placement or permanent construction of a structure on a site, such as pouring of a slab or footings, the installation of pile, the construction of columns, or any work beyond the stage of excavation; or the placement of a factory-built home on a foundation. Permanent construction does not include land preparation, such as clearing, grading and filling; nor does it include the installation of streets and/or walkways; nor does it include excavation for a basement, footings, piers, or foundations or the erection of temporary forms; nor does it include the installation on the property of accessory buildings such as garages or sheds not occupied as dwelling units or not part of the main structure. For a substantial improvement, the actual start of construction means the first alteration of any wall, ceiling, floor, or

other structural part of the building, whether or not that alteration affects the external dimensions of the building.

32. **STRUCTURE.** Anything constructed or erected on the ground or attached to the ground, including, but not limited to, buildings, factories, sheds, cabins, factory-built homes, storage tanks, grain storage facilities and/or other similar uses.
33. **SUBSTANTIAL DAMAGE.** Damage of any origin sustained by a structure whereby the cost of restoring the structure to its before damage condition would equal or exceed fifty (50) percent of the market value of the structure before the damage occurred. Volunteer labor and donated materials shall be included in the estimated cost of repair.
34. **SUBSTANTIAL IMPROVEMENT.** Any improvement to a structure which satisfies either of the following criteria:
- A. Any repair, reconstruction, or improvement of a structure, the cost of which equals or exceeds fifty (50) percent of the market value of the structure either (i) before the "start of construction" of the improvement, or (ii) if the structure has been "substantially damaged" and is being restored, before the damage occurred.
- The term does not, however, include any project for improvement of a structure to correct existing violations of state or local health, sanitary, or safety code specifications which have been identified by the local code enforcement official and which are the minimum necessary to assure safe living conditions. The term also does not include any alteration of an "historic structure", provided the alteration will not preclude the structure's designation as an "historic structure".
- B. Any addition which increases the original floor area of a building by 25 percent or more. All additions constructed after the effective date of the first floodplain management regulations adopted by the community shall be added to any proposed addition in determining whether the total increase in original floor space would exceed 25 percent.
35. **VARIANCE.** A grant of relief by a community from the terms of the floodplain management regulations.
36. **VIOLATION.** The failure of a structure or other development to be fully compliant with the community's floodplain management regulations.

157.02 STATUTORY AUTHORITY, FINDINGS OF FACT AND PURPOSE.

1. The Legislature of the State of Iowa has in Chapter 364, Code of Iowa, as amended, delegated the power to cities to exercise any power and perform any function it deems appropriate to protect and preserve the rights, privileges and property of the City or of its residents, and to preserve and improve the peace, safety, health, welfare, comfort and convenience of its residents.
2. Findings of Fact.
 - A. The flood hazard areas of the City of Boyden are subject to periodic inundation which can result in loss of life and property, health and safety hazards, disruption of commerce and governmental services, extraordinary public expenditures for flood protection and relief, and impairment of the tax base all of which adversely affect the public health, safety and general welfare of the community.
 - B. These flood losses, hazards, and related adverse effects are caused by:
 - (i) The occupancy of flood hazard areas by uses vulnerable to flood damages which create hazardous conditions as a result of being inadequately elevated or otherwise protected from flooding and
 - (ii) the cumulative effect of obstructions on the floodplain causing increases in flood heights and velocities.
 - C. This Chapter relies upon engineering methodology for analyzing flood hazards which is consistent with the standards established by the Department of Natural Resources.
3. Statement of Purpose.

It is the purpose of this Chapter to protect and preserve the rights, privileges and property of the City of Boyden and its residents and to preserve and improve the peace, safety, health, welfare, and comfort and convenience of its residents by minimizing those flood losses described in SECTION 157.02(2)(A) of this Chapter with provisions designed to:

 - A. Reserve sufficient floodplain area for the conveyance of flood flows so that flood heights and velocities will not be increased substantially.
 - B. Restrict or prohibit uses which are dangerous to health, safety or property in times of flood or which cause excessive increases in flood heights or velocities.
 - C. Require that uses vulnerable to floods, including public facilities which serve such uses, be protected against flood damage at the time of initial construction or substantial improvement.
 - D. Protect individuals from buying lands which may not be suited for intended purposes because of flood hazard.

- E. Assure that eligibility is maintained for property owners in the community to purchase flood insurance through the National Flood Insurance Program.

157.03 GENERAL PROVISIONS.

1. Lands to Which Chapter Apply.
The provisions of this Chapter shall apply to all lands and development which have significant flood hazards. The Flood Insurance Rate Map (FIRM) for Sioux County and Incorporated Areas, City of Boyden, Panels 19167C0284D, 19167C0292D, 19167C0303D, 19167C0311D, dated 8-02-2022, which were prepared as part of the Sioux County Flood Insurance Study, shall be used to identify such flood hazard areas and all areas shown thereon to be within the boundaries of the base flood shall be considered as having significant flood hazards. The Flood Insurance Study for the County of Sioux is hereby adopted by reference and is made a part of this chapter for the purpose of administering floodplain management regulations.
2. Rules for Interpretation of Flood Hazard Boundaries.
The boundaries of the Special Flood Hazard areas shall be determined by scaling distances on the official Flood Insurance Rate Map. When an interpretation is needed as to the exact location of a boundary, the City Clerk shall make the necessary interpretation. The City Council shall hear and decide appeals when it is alleged that there is an error in any requirement, decision, or determination made by the City Clerk in the enforcement or administration of this Chapter.
3. Compliance.
No structure or land shall hereafter be used and no structure shall be located, extended, converted or structurally altered without full compliance with the terms of this Chapter and other applicable regulations which apply to uses within the jurisdiction of this Chapter.
4. Abrogation and Greater Restrictions.
It is not intended by this Chapter to repeal, abrogate or impair any existing easements, covenants, or deed restrictions. However, where this Chapter imposes greater restrictions, the provision of this Chapter shall prevail. All other ordinances inconsistent with this Chapter are hereby repealed to the extent of the inconsistency only.
5. Interpretation.
In their interpretation and application, the provisions of this Chapter shall be held to be minimum requirements and shall be liberally construed in favor of

the governing body and shall not be deemed a limitation or repeal of any other powers granted by State statutes.

6. Warning and Disclaimer of Liability.

The standards required by this Chapter are considered reasonable for regulatory purposes. This Chapter does not imply that areas outside the designated special flood hazard areas will be free from flooding or flood damages. This Chapter shall not create liability on the part of the City of Boyden or any officer or employee thereof for any flood damages that result from reliance on this Chapter or any administrative decision lawfully made thereunder.

7. Severability.

If any section, clause, provision or portion of this Chapter is adjudged unconstitutional or invalid by a court of competent jurisdiction, the remainder of this Chapter shall not be affected thereby.

157.04 ADMINISTRATION.

1. Appointment, Duties and Responsibilities of Local Official.

- A. The City Clerk is hereby appointed to implement and administer the provisions of this Chapter and will herein be referred to as the Administrator.
- B. Duties and responsibilities of the Administrator shall include, but not necessarily be limited to the following:
 - 1) Review all floodplain development permit applications to assure that the provisions of this Chapter will be satisfied.
 - 2) Review floodplain development applications to assure that all necessary permits have been obtained from federal, state and local governmental agencies including approval when required from the Department of Natural Resources for floodplain construction.
 - 3) Record and maintain a record of (i) the elevation (in relation to North American Vertical Datum 1988) of the lowest floor (including basement) of all new or substantially improved structures or (ii) the elevation to which new or substantially improved structures have been floodproofed.
 - 4) Notify adjacent communities/counties and the Department of Natural Resources prior to any proposed alteration or

relocation of a watercourse and submit evidence of such notifications to the Federal Emergency Management Agency.

- 5) Keep a record of all permits, appeals and such other transactions and correspondence pertaining to the administration of this Chapter.
- 6) Submit to the Federal Insurance Administrator an annual report concerning the community's participation, utilizing the annual report form supplied by the Federal Insurance Administrator.
- 7) Notify the Federal Insurance Administrator of any annexations or modifications to the community's boundaries.
- 8) Review subdivision proposals to ensure such proposals are consistent with the purpose of this Chapter and advise the City Council of potential conflict.
- 9) Maintain the accuracy of the community's Flood Insurance Rate Maps when:
 - a. Development placed within the floodway results in any of the following:
 - i. An increase in the Base Flood Elevations, or
 - ii. Alteration to the floodway boundary
 - b. Development placed in Zones A, AE, AH, and A1-30 that does not include a designated floodway that will cause a rise of more than one foot in the base flood elevation; or
 - c. Development relocates or alters the channel.

Within 6 months of the completion of the development, the applicant shall submit to FEMA all scientific and technical data necessary for a Letter of Map Revision.

10. Perform site inspections or designate an individual to perform site inspections to ensure compliance with the standards of this Chapter.
 11. Forward all requests for Variances to the City Council for consideration. Ensure all requests include the information ordinarily submitted with applications as well as any additional information deemed necessary to the City Council.
2. Floodplain Development Permit.
- A. Permit Required - A Floodplain Development Permit issued by the Administrator shall be secured prior to any floodplain development (any man-made change to improved and unimproved real estate, including but not limited to buildings or other structures, mining, filling, grading,

paving, storage of materials and equipment, excavation or drilling operations), including the placement of factory-built homes.

- B. Application for Permit - Application shall be made on forms furnished by the Administrator and shall include the following:
- 1) Description of the work to be covered by the permit for which application is to be made.
 - 2) Description of the land on which the proposed work is to be done (i.e., lot, block, track, street address or similar description) that will readily identify and locate the work to be done.
 - 3) Location and dimensions of all structures and additions
 - 4) Indication of the use or occupancy for which the proposed work is intended.
 - 5) Elevation of the base flood.
 - 6) Elevation (in relation to North American Vertical Datum 1988) of the lowest floor (including basement) of structures or of the level to which a structure is to be floodproofed.
 - 7) For structures being improved or rebuilt, the estimated cost of improvements and market value of the structure prior to the improvements.
 - 8) Such other information as the Administrator deems reasonably necessary (e.g., drawings or a site plan) for the purpose of this Chapter.
- C. Action on Permit Application. The Administrator shall, within a reasonable time, make a determination as to whether the proposed floodplain development meets the applicable standards of this Chapter and shall approve or disapprove the application. For disapprovals, the applicant shall be informed, in writing, of the specific reasons therefore. The Administrator shall not issue permits for variances except as directed by the City Council.
- D. Construction and Use to be as Provided in Application and Plans. Floodplain Development Permits based on the basis of approved plans and applications authorize only the use, arrangement, and construction set forth in such approved plans and applications and no other use, arrangement or construction. Any use, arrangement, or construction at variance with that authorized shall be deemed a violation of this Chapter. The applicant shall be required to submit certification by a professional engineer or land surveyor, as appropriate, registered in the State of Iowa, that the finished fill, structure floor elevations, floodproofing, or other flood protection measures were accomplished in compliance with the provisions of this Chapter, prior to the use or occupancy of any structure.

157.05 FLOODPLAINING MANAGEMENT STANDARDS.**1. General Floodplain Standards.**

All development must be consistent with the need to minimize flood damage and meet the following applicable performance standards. Where base flood elevations have not been provided in the Flood Insurance Study, the Iowa Department of Natural Resources shall be contacted to determine (i) whether the land involved is either wholly or partly within the floodway or floodway fringe and (ii) the base flood elevation. The applicant will be responsible for providing the Department of Natural Resources with sufficient technical information to make such determination.

Review by the Iowa Department of Natural Resources is not required for the proposed construction of new or replacement bridges or culverts where (i) the bridge or culvert is located on a stream that drains less than two (2) square miles, and (ii) the bridge or culvert is not associated with a channel modification that constitutes a channel change as specified in 567-71.2(2), Iowa Administrative Code.

A. All development within the special flood hazard areas shall:

- 1) Be designed and adequately anchored to prevent flotation, collapse or lateral movement.
- 2) Use construction methods and practices that will minimize flood damage.
- 3) Use construction materials and utility equipment that are resistant to flood damage.

B. Residential structures. All new or substantially improved residential structures shall have the lowest floor, including basement, elevated a minimum of one (1) foot above the base flood elevation. Construction shall be upon compacted fill which shall, at all points, be no lower than 1.0 ft. above the base flood elevation and extend at such elevation at least 18 feet beyond the limits of any structure erected thereon. Alternate methods of elevating (such as piers or extended foundations) may be allowed where existing topography, street grades, or other factors preclude elevating by fill. In such cases, the methods used must be adequate to support the structure as well as withstand the various forces and hazards associated with flooding.

All new residential structures located in areas that would become isolated due to flooding of surrounding ground shall be provided with a means of access that will be passable by wheeled vehicles during the base

flood. However, this criterion shall not apply where the Administrator determines there is sufficient flood warning time for the protection of life and property. When estimating flood warning time, consideration shall be given to the criteria listed in 567-75.2(3), Iowa Administrative Code.

- C. Non-residential structures. All new or substantially improved non-residential structures shall have the lowest floor (including basement) elevated a minimum of one (1) foot above the base flood elevation, or together with attendant utility and sanitary systems, be floodproofed to such a level. When floodproofing is utilized, a professional engineer registered in the State of Iowa shall certify that the floodproofing methods used are adequate to withstand the flood depths, pressures, velocities, impact and uplift forces and other factors associated with the base flood; and that the structure, below the base flood elevation is watertight with walls substantially impermeable to the passage of water. A record of the certification indicating the specific elevation (in relation to North American Vertical Datum 1988) to which any structures are floodproofed shall be maintained by the Administrator.

D. All new and substantially improved structures:

- 1) Fully enclosed areas below the "lowest floor" (not including basements) that are subject to flooding shall be designed to automatically equalize hydrostatic flood forces on exterior walls by allowing for the entry and exit of floodwaters. Designs for meeting this requirement must either be certified by a registered professional engineer or meet or exceed the following minimum criteria:
 - a. A minimum of two openings having a total net area of not less than one square inch for every square foot of enclosed area subject to flooding shall be provided.
 - b. The bottom of all openings shall be no higher than one foot above grade.
 - c. Openings may be equipped with screens, louvers, valves, or other coverings or devices provided they permit the automatic entry and exit of floodwaters.

Such areas shall be used solely for parking of vehicles, building access and low damage potential storage.

- 2) New and substantially improved structures must be designed (or modified) and adequately anchored to prevent flotation, collapse, or lateral movement of the structure resulting from hydrodynamic and hydrostatic loads, including the effects of buoyancy.

- 3) New and substantially improved structures shall be constructed with electric meter, electrical service panel box, hot water heater, heating, air conditioning, ventilation equipment (including ductwork), and other similar machinery and equipment elevated (or in the case on non-residential structures, optionally floodproofed to) a minimum of one (1) foot above the base flood elevation.
- 4) New and substantially improved structures shall be constructed with plumbing, gas lines, water/gas meters and other similar service utilities either elevated (or in the case of non-residential structures, optionally floodproofed to) a minimum of one (1) foot above the base flood elevation or designed to be watertight and withstand inundation to such a level.

E. Factory-built homes:

- 1) All new and substantially improved factory-built homes, including those placed in existing factory-built home parks or subdivisions shall be elevated on a permanent foundation such that the lowest floor of the structure is a minimum of one (1) foot above the base flood elevation.
- 2) All new and substantially improved factory-built homes, including those placed in existing factory-built home parks or subdivisions shall be anchored to resist flotation, collapse, or lateral movement. Anchorage systems may include, but are not limited to, use of over-the-top or frame ties to ground anchors as required by the State Building Code.

F. Utility and Sanitary Systems:

- 1) On-site waste disposal and water supply systems shall be located or designed to avoid impairment to the system or contamination from the system during flooding.
- 2) All new and replacement sanitary sewage systems shall be designed to minimize or eliminate infiltration of flood waters into the system as well as the discharge of effluent into flood waters. Wastewater treatment facilities (other than on-site systems) shall be provided with a level of flood protection equal to or greater than one (1) foot above the base flood elevation.
- 3) New or replacement water supply systems shall be designed to minimize or eliminate infiltration of flood waters into the system. Water supply treatment facilities (other than on-site systems) shall be provided with a level of protection equal to or greater than one (1) foot above the base flood elevation.

- 4) Utilities such as gas or electrical systems shall be located and constructed to minimize or eliminate flood damage to the system and the risk associated with such flood damaged or impaired systems.
- G. Storage of materials and equipment that are flammable, explosive or injurious to human, animal or plant life is prohibited unless elevated a minimum of one (1) foot above the base flood elevation. Other material and equipment must either be similarly elevated or (i) not be subject to major flood damage and be anchored to prevent movement due to flood waters or (ii) be readily removable from the area within the time available after flood warning.
- H. Flood control structural works such as levees, flood walls, etc. shall provide, at a minimum, protection from the base flood with a minimum of 3 ft. of design freeboard and shall provide for adequate interior drainage. In addition, the Department of Natural Resources shall approve structural flood control works.
- I. Watercourse alterations or relocations must be designed to maintain the flood carrying capacity within the altered or relocated portion. In addition, the Department of Natural Resources must approve such alterations or relocations.
- J. Subdivisions (including factory-built home parks and subdivisions) shall be consistent with the need to minimize flood damages and shall have adequate drainage provided to reduce exposure to flood damage. Development associated with subdivision proposals (including the installation of public utilities) shall meet the applicable performance standards of this Chapter. Subdivision proposals intended for residential use shall provide all lots with a means of access which will be passable by wheeled vehicles during the base flood. Proposals for subdivisions greater than five (5) acres or fifty (50) lots (whichever is less) shall include base flood elevation data for those areas located within the Special Flood Hazard Area.
- K. Accessory Structures to Residential Uses.
- 1) Detached garages, sheds, and similar structures that are incidental to a residential use are exempt from the base flood elevation requirements where the following criteria are satisfied.
 - a. The structure shall be designed to have low flood damage potential. Its size shall not exceed 600 sq. ft. in size. Those portions of the structure located less than 1 foot above the

base flood elevation must be constructed of flood-resistant materials.

- b. The structure shall be used solely for low flood damage potential purposes such as vehicle parking and limited storage. The structure shall not be used for human habitation.
- c. The structure shall be constructed and placed on the building site so as to offer minimum resistance to the flow of floodwaters.
- d. The structure shall be firmly anchored to resist flotation, collapse and lateral movement.
- e. The structure's service facilities such as electrical and heating equipment shall be elevated or floodproofed to at least one foot above the base flood elevation.
- f. The structure's walls shall include openings that satisfy the provisions of SECTION 157.05(1)(D)(1) of this Chapter.

- 2) Exemption from the base flood elevation requirements for such a structure may result in increased premium rates for flood insurance coverage of the structure and its contents.

L. Recreational Vehicles.

- 1) Recreational vehicles are exempt from the requirements of SECTION 157.05(1)(E) of this Chapter regarding anchoring and elevation of factory-built homes when the following criteria are satisfied.
 - a. The recreational vehicle shall be located on the site for less than 180 consecutive days, and,
 - b. The recreational vehicle must be fully licensed and ready for highway use. A recreational vehicle is ready for highway use if it is on its wheels or jacking system and is attached to the site only by quick disconnect type utilities and security devices and has no permanently attached additions.
- 2) Recreational vehicles that are located on the site for more than 180 consecutive days or are not ready for highway use must satisfy requirements of SECTION 157.05(1)(E) of this Chapter regarding anchoring and elevation of factory-built homes.

M. Pipeline river and stream crossings shall be buried in the streambed and banks, or otherwise sufficiently protected to prevent rupture due to channel degradation and meandering.

- N. Maximum Damage Potential Development. All new or substantially improved maximum damage potential development shall have the lowest floor (including basement) elevated a minimum of one (1) foot above the elevation of the 500-year flood, or together with attendant utility and sanitary systems, be floodproofed to such a level. When floodproofing is utilized, a professional engineer registered in the State of Iowa shall certify that the floodproofing methods used are adequate to withstand the flood depths, pressures, velocities, impact and uplift forces and other factors associated with the 0.2% annual chance flood; and that the structure, below the 0.2% annual chance flood elevation is watertight with walls substantially impermeable to the passage of water. A record of the certification indicating the specific elevation (in relation to North American Vertical Datum 1988) to which any structures are floodproofed shall be maintained by the Administrator. Where 0.2% chance flood elevation data has not been provided in the Flood Insurance Study, the Iowa Department of Natural Resources shall be contacted to compute such data. The applicant will be responsible for providing the Department of Natural Resources with sufficient technical information to make such determinations.

157.06 VARIANCE PROCEDURES.

1. The City Council may authorize upon request in specific cases such variances from the terms of this Chapter that will not be contrary to the public interest where, owing to special conditions, a literal enforcement of the provisions of this Chapter will result in unnecessary hardship. Variances granted must meet the following applicable standards.
 - A. Variances shall only be granted upon: (i) a showing of good and sufficient cause, (ii) a determination that failure to grant the variance would result in exceptional hardship to the applicant, and (iii) a determination that the granting of the variance will not result in increased flood heights, additional threats to public safety, extraordinary public expense, create nuisances, cause fraud on or victimization of the public or conflict with existing local codes or Chapters.
 - B. Variances shall not be issued within any designated floodway if any increase in flood levels during the base flood would result. Consideration of the effects of any development on flood levels shall be based upon the assumption that an equal degree of development would be allowed for similarly situated lands.
 - C. Variances shall only be granted upon a determination that the variance is the minimum necessary, considering the flood hazard, to afford relief.

- D. In cases where the variance involves a lower level of flood protection for structures than what is ordinarily required by this Chapter, the applicant shall be notified in writing over the signature of the Administrator that: (i) the issuance of a variance will result in increased premium rates for flood insurance up to amounts as high as \$25 for \$100 of insurance coverage and (ii) such construction increases risks to life and property.
 - E. All variances granted shall have the concurrence or approval of the Department of Natural Resources.
2. Factors Upon Which the Decision of the City Council Shall be Based. In passing upon applications for Variances, the Council shall consider all relevant factors specified in other sections of this Chapter and:
- A. The danger to life and property due to increased flood heights or velocities caused by encroachments.
 - B. The danger that materials may be swept on to other land or downstream to the injury of others.
 - C. The proposed water supply and sanitation systems and the ability of these systems to prevent disease, contamination and unsanitary conditions.
 - D. The susceptibility of the proposed facility and its contents to flood damage and the effect of such damage on the individual owner.
 - E. The importance of the services provided by the proposed facility to the City.
 - F. The requirements of the facility for a floodplain location.
 - G. The availability of alternative locations not subject to flooding for the proposed use.
 - H. The compatibility of the proposed use with existing development and development anticipated in the foreseeable future.
 - I. The relationship of the proposed use to the comprehensive plan and floodplain management program for the area.
 - J. The safety of access to the property in times of flood for ordinary and emergency vehicles.
 - K. The expected heights, velocity, duration, rate of rise and sediment transport of the flood water expected at the site.
 - L. The cost of providing governmental services during and after flood conditions, including maintenance and repair of public utilities (sewer, gas, electrical and water systems), facilities, streets and bridges.
 - M. Such other factors which are relevant to the purpose of this Chapter.

3. Conditions Attached to Variances. Upon consideration of the factors listed above, the City Council may attach such conditions to the granting of variances as it deems necessary to further the purpose of this Chapter. Such conditions may include, but not necessarily be limited to:
 - A. Modification of waste disposal and water supply facilities.
 - B. Limitation of periods of use and operation.
 - C. Imposition of operational controls, sureties, and deed restrictions.
 - D. Requirements for construction of channel modifications, dikes, levees, and other protective measures, provided such are approved by the Department of Natural Resources and are deemed the only practical alternative to achieving the purpose of this Chapter.
 - E. Floodproofing measures shall be designed consistent with the flood protection elevation for the particular area, flood velocities, duration, rate of rise, hydrostatic and hydrodynamic forces, and other factors associated with the regulatory flood. The Council shall require that the applicant submit a plan or document certified by a registered professional engineer that the floodproofing measures are consistent with the regulatory flood protection elevation and associated flood factors for the particular area.

157.07 NONCONFORMING USES.

1. A structure or the use of a structure or premises which was lawful before the passage or amendment of this Chapter, but which is not in conformity with the provisions of this Chapter, may be continued subject to the following conditions:
 - A. If such use is discontinued for six (6) consecutive months, any future use of the building premises shall conform to this Chapter.
 - B. Uses or adjuncts thereof that are or become nuisances shall not be entitled to continue as nonconforming uses.
 - C. If any nonconforming use or structure is destroyed by any means, including flood, it shall not be reconstructed if the cost is more than fifty (50) percent of the market value of the structure before the damage occurred, unless it is reconstructed in conformity with the provisions of this Chapter. This limitation does not include the cost of any alteration to comply with existing state or local health, sanitary, building or safety codes or regulations or the cost of any alteration of a structure listed on the National Register of Historic Places, provided that the alteration shall not preclude its continued designation.
2. Except as provided in SECTION 157.07(1)(B), any use which has been permitted as a Variance shall be considered a conforming use.

157.08 PENALTIES FOR VIOLATION.

Violations of the provisions of this Chapter or failure to comply with any of the requirements shall constitute a misdemeanor. Any person who violates this Chapter or fails to comply with any of its requirements shall upon conviction thereof be fined not more than \$1,000.00 (ONE THOUSAND DOLLARS) for an initial violation and not more than \$2,000.00 (TWO THOUSAND DOLLARS) for the second and further violation. Nothing herein contained prevents the City of Boyden from taking such other lawful action as is necessary to prevent or remedy violation.

157.09 AMENDEMENTS.

The regulations and standards set forth in this Chapter may from time to time be amended, supplemented, changed, or repealed. No amendment, supplement, change, or modification shall be undertaken without prior approval of the Department of Natural Resources.

APPENDIX TO CODE OF ORDINANCES

USE AND MAINTENANCE OF THE CODE OF ORDINANCES

The following information is provided to assist in the use and proper maintenance of this Code of Ordinances.

DISTRIBUTION OF COPIES

1. OFFICIAL COPY. The “OFFICIAL COPY” of the Code of Ordinances must be kept by the City Clerk and should be identified as the “OFFICIAL COPY.”

2. DISTRIBUTION. Other copies of the Code of Ordinances should be made available to all persons having a relatively frequent and continuing need to have access to ordinances which are in effect in the City as well as reference centers such as the City Library, County Law Library, and perhaps the schools.

3. SALE. The sale or distribution of copies in a general fashion is not recommended as experience indicates that indiscriminate distribution tends to result in outdated codes being used or misused.

4. RECORD OF DISTRIBUTION. The City Clerk should be responsible for maintaining an accurate and current record of persons having a copy of the Code of Ordinances. Each official, elected or appointed, should return to the City, upon leaving office, all documents, records and other materials pertaining to the office, including this Code of Ordinances.

(Code of Iowa, Sec. 372.13[4])

NUMBERING OF ORDINANCES AMENDING THE CODE OF ORDINANCES

It is recommended that a simple numerical sequence be used in assigning ordinance numbers to ordinances as they are passed. For example, if the ordinance adopting the Code of Ordinances is No. 163, we would suggest that the first ordinance passed changing, adding to, or deleting from the Code be assigned the number 164, the next ordinance be assigned the number 165, and so on. We advise against using the Code of Ordinances numbering system for the numbering of ordinances.

RETENTION OF AMENDING ORDINANCES

Please note that two books should be maintained: (1) the Code of Ordinances; and (2) an ordinance book. We will assist in the maintenance of the Code of Ordinances book, per the Supplement Agreement, by revising and returning appropriate pages for the Code of Ordinances book as required to accommodate ordinances amending the Code. The City Clerk is responsible for maintaining the ordinance book and must be sure that an original copy of each ordinance adopted, bearing the signatures of the Mayor and Clerk, is inserted in the ordinance book and preserved in a safe place.

SUPPLEMENT RECORD

A record of all supplements prepared for the Code of Ordinances is provided in the front of the Code. This record will indicate the number and date of the ordinances adopting the original Code and of each subsequently adopted ordinance which has been incorporated in the Code. For each supplemented ordinance, the Supplement Record will list the ordinance number, date, topic, and chapter or section number of the Code affected by the amending ordinance. A periodic review of the Supplement Record and ordinances passed will assure that all ordinances amending the Code have been incorporated therein.

DISTRIBUTION OF SUPPLEMENTS

Supplements containing revised pages for insertion in each Code will be sent to the Clerk. It is the responsibility of the Clerk to see that each person having a Code of Ordinances receives each supplement so that each Code may be properly updated to reflect action of the Council in amending the Code.

AMENDING THE CODE OF ORDINANCES

The Code of Ordinances contains most of the laws of the City as of the date of its adoption and is continually subject to amendment to reflect changing policies of the Council, mandates of the State, or decisions of the Courts. Amendments to the Code of Ordinances can only be accomplished by the adoption of an ordinance.

(Code of Iowa, Sec. 380.2)

The following forms of ordinances are recommended for making amendments to the Code of Ordinances:
